Named a Best Book of the Year by The San Francisco Chronicle "Survivor Cafe ...feels like the book Rosner was born to write. Each page is imbued with urgency, with sincerity, with heartache, with heart.... Her words, alongside the words of other survivors of atrocity and their descendants across the globe, can help us build a more humane world." —San Francisco Chronicle As firsthand survivors of many of the twentieth century’s most monumental events—the Holocaust, Hiroshima, the Killing Fields—begin to pass away, Survivor Cafe addresses urgent questions: How do we carry those stories forward? How do we collectively ensure that the horrors of the past are not forgotten? Elizabeth Rosner organizes her book around three trips with her father to Buchenwald concentration camp—in 1983, in 1995, and in 2015—each journey an experience in which personal history confronts both commemoration and memorialization. She explores the echoes of similar legacies among descendants of African American slaves, descendants of Cambodian survivors of the Killing Fields, descendants of survivors of the bombing of Hiroshima and Nagasaki, and the effects of 9/11 on the general population. Examining current brain research, Rosner depicts the efforts to understand the intergenerational inheritance of trauma, as well as the intricacies of remembrance in the aftermath of atrocity. Survivor Cafe becomes a lens for numerous constructs of memory—from museums and commemorative sites to national reconciliation projects to small – group cross – cultural encounters. Beyond preserving the firsthand testimonies of participants and witnesses, individuals and societies must continually take responsibility for learning the painful lessons of the past in order to offer hope for the future. Survivor Cafe offers a clear – eyed sense of the enormity of our twenty – first – century human inheritance—not only among direct descendants of the Holocaust but also in the shape of our collective responsibility to learn from tragedy, and to keep the ever – changing conversations alive between the past and the present.

Her story reflects the experiences common to many Indian communities in Latin America today. Rigoberta suffered gross injustice and hardship in her early life: her brother, father and mother were murdered by the Guatemalan military. She learned Spanish and turned to catechist work as an expression of political revolt as well as religious commitment. The anthropologist Elisabeth Burgos-Debray, herself a Latin American woman, conducted a series of interviews with Rigoberta Menchu. The result is a book unique in contemporary literature which records the detail of everyday Indian life. Rigoberta ’ s gift for striking expression vividly conveys both the religious and superstitious beliefs of her community and her personal response to feminist and socialist ideas. Above all, these pages are illuminated by the enduring courage and passionate sense of justice of an extraordinary woman.

A gargantuan, mind-altering comedy about the Pursuit of Happiness in America Set in an addicts' halfway house and a tennis academy, and featuring the most endearingly screwed-up family to come along in recent fiction, Infinite Jest explores essential questions about what entertainment is and why it has come to so dominate our lives; about how our desire for entertainment affects our need to connect with other people; and about what the pleasures we choose say about who we are. Equal

parts philosophical quest and screwball comedy, Infinite Jest bends every rule of fiction without sacrificing for a moment its own entertainment value. It is an exuberant, uniquely American exploration of the passions that make us human - and one of those rare books that renew the idea of what a novel can do. "The next step in fiction...Edgy, accurate, and darkly witty...Think Beckett, think Pynchon, think Gaddis. Think." --Sven Birkerts, The Atlantic

Jane Stanford, the co-founder of Stanford University, died in Honolulu in 1905, shortly after surviving strychnine poisoning in San Francisco. The inquest testimony of the physicians who attended her death in Hawaii led to a coroner's jury verdict of murder by strychnine poisoning. Stanford University President David Starr Jordan promptly issued a press release claiming that Mrs. Stanford had died of heart disease, a claim that he supported by challenging the skills and judgment of the Honolulu physicians and toxicologist. Jordan's diagnosis was largely accepted and promulgated in many subsequent historical accounts. In this book, the author reviews the medical reports in detail to refute Dr. Jordan's claim and to show that Mrs. Stanford indeed died of strychnine poisoning. His research reveals that the professionals who were denounced by Dr. Jordan enjoyed honorable and distinguished careers. He concludes that Dr. Jordan went to great lengths, over a period of nearly two decades, to cover up the real circumstances of Mrs. Stanford's death.
