This text has been designed as a supplement to the Textbook of Surgery to assist readers in their preparation for examinations and to test their knowledge of the principles and practice of surgery. There are two types of Multiple Choice Questions: Type A and Type X. Type A have a single best response from five alternatives and are designed to test judgmental ability. Type X questions contain a stem with suggested answers that are either true or false and are designed to test factual knowledge and its application. The text is set out in three sections, the first containing Type A questions, the second containing Type X questions and the third containing short answer questions that emphasize clinical management problems. In each section, the questions are presented in the sequence used in Textbook of Surgery. The number of questions for each general topic relate to the relative importance ascribed to each topic in order to provide balance. The answers are accompanied by a reference to the chapter(s) in the Textbook of Surgery where the information required to answer the specific question is presented.

This volume of practise true/false MCQs and short answer questions is intended to be used by the trainee obstetrician and gynaecologist as a self-assessment aid throughout training and during revision for the MRCOG examination, in particular Part 2. Questions have been carefully designed to test both theoretical and practical knowledge, and are representative of the curricular elements highlighted within the RCOG trainee logbook.

Following on from the success of the first edition, Short Answer Questions and MCQs in Anaesthesia and Intensive Care has been completely rewritten to reflect the changes to the final FRCA exam from a long essay based examination to compulsory short answer questions (SAQs). This guide aims to introduce methods and systems of answering questions succinctly and accurately. Almost all of the questions have been asked in the final FRCA since 1996 and most chapters carry more detail than required to reach a pass standard. The new edition takes a question-orientated approach and provides guidance for the final exam. Given the short time allowed for answering the SAQs, previous practice, prior to sitting the examination, is essential. Each of the twelve sections has a comprehensive set of multiple choice questions (MCQ) to the same standard as those set by the Royal College of Anaesthetists. It is vital that candidates practice MCQs as well as SAQs, and the ninety multiple choice questions that follow the SAQ paper carry just as much weight as the SAQ paper. The book has been structured as topic based sections and chapters, each of which can be followed and used to enable self-testing. This book is an invaluable revision aid during preparation for the final FRCA exam and, due to the breadth of content, also forms a useful ready reference throughout anaesthetic training.

The "Siegel's Series" works through key topics in a Q&A format, providing an additional source for self-quizzing. A proven resource for high performance, titles in this exam-prep series contain essay questions with model answers, as well as multiple-choice questions and answers. A proven resource for high performance, the Siegel's series keeps you focused on the only thing that matters – the exam. The Siegel's series relies on a powerful Q&A format, featuring multiple-choice questions at varying levels of difficulty, as well as essay questions to give you practice issue-spotting and analyzing the law. Answers to multiple-choice questions explain why one choice is correct as well as why the other choices are wrong, to ensure complete understanding. An entire chapter is devoted to teaching you how to prepare effectively for essay exams. The chapter provides instruction, advice, and exam-taking tips that help you make the most of your study time. A wonderful resource for practice in answering the types of questions your professor will ask on your exam, the Siegel's Series will prove valuable in the days or weeks leading up to your final. Features: Exposing you to the types of questions your professor will ask on the exam, Siegel's will prove valuable in the days or weeks leading up to your final. A great number of questions at the appropriate level of difficulty – 20 to 30 essay Q&As and 90 to 100 multiple-choice Q&As – provide opportunity for you to practice spotting issues as you apply your knowledge of the law. Essay questions give you solid practice writing concise essay answers, and the model answers allow you to check your work. An entire chapter is devoted to preparing for essay exams. In checking your answers to multiple-choice questions, you can figure out where you may have erred: Answers explain why one choice is correct and the other choices are wrong. To help you learn to make the most of your study time, the introductory chapter gives instruction, advice, and tips for preparing for and taking essay exams. The table of contents helps you prepare for exams by clearly outlining the topics tested in each Essay question. In addition, you can locate questions covering topics you're having difficulty with by checking the index. Revised by law school professors, the Siegel's Series is updated on a regular basis.

The Part 2 MRCOG consists of three question formats: multiple choice questions (MCQs), extended matching questions (EMQs) and short answer questions (SAQs). This book provides a verbatim transcript for the MCQ element of each of the 10 papers set between 1997 and 2001, giving candidates the opportunity to test their knowledge and preparedness for the examination against real questions.
