~~Mercury Mercruiser~~ is world-renowned for creating innovations that provide boaters the best experiences on the water. From our pioneering sterndrive propulsion introduced at the Chicago Boat Show more than a half-century ago to today ' s joystick controls that give boaters the confidence and ability to pilot the boat of their dreams even under extreme conditions, Mercury Mercruiser is the undisputed leader in marine power and technology.

~~Mercury® Mercruiser® | Mercury Marine~~

The Mercury Mercruiser 6.2L offers exceptional fuel efficiency. Wide band oxygen sensors continuously monitor oxygen levels, which enables the engine control module to deliver precisely the correct amount of fuel. The result is fuel economy that stretches your boat ' s range and your dollar.

~~Mercury® Mercruiser® Inboards | Mercury Marine~~

Mercury ' s Engine Guardian continually monitors critical sensors for any sign of a problem and immediately takes action, while the water-cooled Cool Fuel delivery system on the 8.2L Inboard engine prevents vapor lock. Rugged construction, including stainless-steel exhaust, ensures long-term, hassle-free operation.

~~Mercury® Mercruiser® Inboards | Mercury Marine~~

MerCruiser Sterndrive or Inboard-Outboard Engines (IOs) A MerCruiser sterndrive is essentially a car or truck style engine mounted inside the boat, lower in the hull. The engine is then connected through the transom, or back of the boat, to an outdrive unit that hangs down below the boat ' s bottom.

galvanic corrosion within its engine, transom and drive.

~~Mercury Marine - Wikipedia~~

As an example, the Mercruiser 4.2 litre or the MD706 range of marine engines can easily take around 50 – 65 hours to completely recondition including checking the coolers and heat exchangers. Because of the amount of time required to repair these engines, a lot of boat owners and boatyards prefer to entrust the work to a specialised Mercruiser repairer such as the VM Diesel Specialist.

The story of the ZR-1 Corvette and the high-performance LT5 engine is a fascinating tale of interest to every Corvette enthusiast. The author gives you an inside look at how the ZR-1 was born, what went into the design and manufacture of the LT5 engine, and why production was discontinued. THE HEART OF THE BEAST also discusses the exciting American and European debuts of the ZR-1, the numerous world records set by this potent Corvette, and the various aftermarket variations of the ZR-1.

Sixty years old in 1999, Mercury Marine is the world leader in the marine industry. The memory of its founder, Carl Kiekhaefer, lives on in the hearts and minds of engineers and boat enthusiasts alike. His manic genius and tireless energy found outlet in his need for greater speed, more features and higher value, first in outboards and then in stern drive products. Since Kiekhaefer's departure from the company in 1970, Mercury Marine has come into its own while holding onto those qualities inherited from its founder, qualities that abhor failure. Jeffrey L. Rodengen, author of Iron Fist: The Lives of Carl Kiekhaefer, continues to chronicle the fascinating story of Mercury Marine. The Legend of Mercury Marine details the company's struggle and ultimate triumph in this comprehensive, lavishly illustrated 225-page work.
