Tea Plantation Workers of Assam and the Indian National Movement, 1921-1947 studies the various phases of workers' politics in the tea plantations of Assam and deliberates upon the role of nationalist leaders in moulding the fate of these workers. The struggles of the tea plantation workers were a manifestation of the strength of their protests against the varied forms of exploitations of the tea planters. Their struggle occurred at the time of the formation of the indigenous bourgeoisie and continued despite the nationalist leadership not providing sufficient support to them. There remained a deep incongruity between the interests of the workers and the interests of the nationalist leadership which largely determined the fate of the material conditions of the labourers in deeper aspects.

Most people know that there are 70 million Baby Boomers in America today....but what is less known is that there are approximately 100 million people in America between the ages of 16 and 30. This generation has just entered, or will soon be entering the work force. And they have no idea how to invest, save, or handle their money. Young people today come out of school having had little or no formal education on the basics of money management. Many have large debts from student loans looming over their heads. And many feel confused and powerless when their pricey educations don't translate into high paying jobs. They feel that their \$30,000-\$40,000 salary is too meager to bother with investing, and they constantly fear that there will be "too much month left at the end of their money." Douglas R. Andrew has shown the parents of this generation a different pathway to financial freedom. Now Doug and his sons, Emron and Aaron - both of whom are in their mid-20s - show the under-30 crowd how they can break from traditional 401k investment plans and instead can find a better way by investing in real estate, budgeting effectively, avoiding unnecessary taxes and using life insurance to create tax-free income. With the principles outlined in Millionaire by Thirty, recent graduates will be earning enough interest on their savings to meet their basic living expenses by the time they're 30. And by the time they're 35, their investments will be earning more money than they are, guaranteeing them a happy, wealthy future.

Timothy and Kathy Keller will show you a portrait of marriage as it's meant to be according to the Bible...by first throwing out most of what we've been taught about love. Modern culture would have you believe that everyone has a soul mate; that romance is the most important part of a successful marriage; that marriage does not mean 'til death do us part, but merely for as long as my needs are being met; and that when serious differences arise, divorce is the best solution. But all of these modern-day assumptions miss what marriage is really about. In this six-session video-based Bible study (DVD/digital video sold separately), Timothy Keller, along with Kathy, his wife of forty years, draws a profound portrait of marriage from the pages of Scripture that neither idealizes nor rejects the institution but points us back to the relationship between God and man. The result is a vision for marriage that is refreshingly frank and unsentimental, yet hopeful and beautiful. This study is for anyone from singles to couples considering marriage to those who have been married for any length of time. Sessions include: Service: Marriage Isn't about You Covenant: Created to Make Promises Roles: Loving through Mutual Submission Singleness: Strengthening the Spiritual Family Sex: The Act of Covenant Renewal Hope: Seeing the Great Horizon Designed for use with The Meaning of Marriage Video Study (sold separately).
