fast-moving, mobile environment, the GO! with Office 2016 series focuses on the job skills needed to succeed in the workforce. With job-related projects that put Microsoft Office® into context, students learn the how and why at the moment they need to know, all in the appropriate Microsoft procedural syntax. For Office 2016, the hallmark guided-practice to skill-mastery pathway is better than ever. Students have many opportunities to work live in Microsoft office to apply the skills they've learned. In addition, instructional projects are now available as grader projects in MyITLab, so students can work live in Office while receiving auto-graded feedback. These high-fidelity simulations match the text and provide an effective pathway for learning, practicing, and assessing their abilities. After completing the instructional projects, students can apply their skills with a variety of progressively challenging projects that require them to solve problems, think critically, and create on their own. New GO! Collaborate with Google projects allow students to apply their skills to a new environment that is already popular in many workplaces. Integrated Microsoft Office Specialist (MOS) objectives make GO! your one resource for learning Office, gaining critical productivity skills, and prepare for MOS certification. Also available with MyITLab MyITLab® is an online homework, tutorial, and assessment program designed for Information Technology (IT) courses, to engage students and improve results. HTML5 Simulation exercises and Live-in-Application Grader projects come with the convenience of auto-grading and instant feedback, so students learn more quickly and effectively, and build the critical skills needed for college and career

Microsoft Outlook 2016 comes as a part of the Office 2016 suite released to the public in 2015. The suite includes Microsoft PowerPoint, Excel and Word. The release took two forms; being first launched in the OS X software for the Office 365 users in July and the licensed version later in September of the same year. Microsoft has received impressive reviews regarding the enhanced speed and database performance now been experienced by users of the new Outlook. The improved performance from the modernized Exchange Web Services has resulted in efficient delivery of emails and minimized wait time during a search for last week's email or when attempting to access more current files. Accolades have also been issued for easy to identify and use features as well as the updated blue status bar for maintaining control of your device.
