El empresario pyme está o quiere estar mejor informado. Se ha terminado la situación de cierto destumbramiento por parte del empresario hacia las tecnologías y el acercamiento a éstas por moda o influido por campañas publicitarias, y ahora busca aplicaciones y tecnologías adecuadas a su negocio, rentables, útiles y a un precio razonable. Este libro es un elemento básico para extender y mostrar las tecnologías disponibles al empresario pyme: el carácter divulgador del estudio aporta mayores elementos de juicio en su decisión de inversión en tecnologías y le descubre distintas soluciones y aplicaciones adecuadas a sus necesidades.

Esta publicación desarrollada por Editorial Vértice es uno de los módulos que componen el Certificado de Profesionalidad denominado 'Actividades de venta'. A través de estas líneas se explicará cómo ejecutar las actividades de venta de productos y/o servicios a través de los diferentes canales de comercialización estableciendo relaciones con el cliente de la manera más satisfactoria, alcanzando los objetivos propuestos por la organización y estableciendo vínculos que propicien la fidelización del cliente. Está dirigido a profesionales que desarrollen su actividad en cualquier sector productivo en el área de comercialización: pequeña, mediana o gran empresa.
1 Organización del punto de venta
2 Animación básica en el punto de venta
3 Presentación y empaquetado de productos para la venta
4 Elaboración de informes comerciales sobre la venta

This book presents the proceedings of International Conference on Knowledge Society: Technology, Sustainability and Educational Innovation (TSIE 2019). The conference, which was held at UTN in Ibarra, Ecuador, on 3–5 July 2019, allowed participants and speakers to share their research and findings on emerging and innovative global issues. The conference was organized in collaboration with a number of research groups: Group for the Scientific Research Network (e-CIER); Research Group in Educational Innovation and Technology, University of Salamanca, Spain(GITE-USAL); International Research Group for Heritage and Sustainability (GIHS), and the Social Science Research Group (GICS). In addition, it had the endorsement of the RedCLARA, e-science, Fidal Foundation, Red CEDIA, IEET, Microsoft, Business IT, Adobe, and Argo Systems. The term “knowledge society” can be understood as the management, understanding and co-creation of knowledge oriented toward the sustainable development and positive transformation of society. In this context and on the occasion of the XXIII anniversary of the Universidad Técnica del Norte (UTN), the Postgraduate Institute through its Master of Technology and Educational Innovation held the I International Congress on Knowledge Society: Technology, Sustainability and Educational Innovation – TSIE 2019, which brought together educators, researchers, academics, students, managers, and professionals, from both the public and private sectors to share knowledge and technological developments. The book covers the following topics: 1. curriculum, technology and educational innovation; 2. media and education; 3. applied computing; 4. educational robotics. 5. technology, culture, heritage, and tourism development perspectives; and 6. biodiversity and sustainability.

Microsoft Publisher En Las Pymes - AlfaGiuliaForum.com

Durante la última década, el gobierno mexicano ha establecido un marco fuerte de política para promover las pequeñas y medianas empresas (PYMEs) y el emprendimiento. Ha creado una serie de apoyos políticos que van desde el desarrollo de nuevos emprendedores, microempresas, PYMEs y empresas “gacela” al fomento de la asociación entre las PYMEs y las llamadas empresas “tractor”. Han sido creados también nuevos acuerdos de coordinación entre las secretarías de estado y los gobiernos estatales para aumentar la coherencia y la integración de sus programas. El informe estudia la situación de dicho progreso y evalúa las oportunidades para fortalecer más la economía mexicana mediante las PYMEs y el emprendimiento. Esto muestra que el marco de condiciones en México es bueno en general, y que ha mejorado en los años recientes gracias a reformas como la simplificación regulatoria, a la expansión del programa nacional de garantías, y a la inclusión del sector de microempresas como un objetivo del sistema de apoyo público. Al mismo tiempo, se puede hacer más aún para convertir a los emprendedores a negocios del sector formal y desarrollar más las empresas medianas para que sean capaces de innovar y comerciar internacionalmente. También existe margen para mejorar el proceso de elaboración de políticas de apoyo de más alta calidad y relevancia para las empresas beneficiarias al simplificar las reglas y operaciones del Fondo PYME, desarrollar las competencias profesionales de los empleados y consultores que proveen servicios de desarrollo a las empresas y usan la información, en el nivel de empresa, con el propósito de evaluación de política.
