A lighthearted style guide in the tradition of Eats, Shoots & Leaves shares offbeat, biting rules for standard written English, including such examples as, "An amoral person is one who does not know the difference between right and wrong. An immoral person knows the difference but does wrong anyway." Original.

A linguist with attitude, R. L. Trask was a steadfast soldier in the never-ending War of Words, fighting the good fight for standard written English. Revered for its insight and legendary for its "cheek," Trask's Mind the Gaffe! is an indispensable guidebook for wordsmiths and language mavens of every stripe, providing safe passage through the ubiquitous minefields of improper usage. Artist: This pretentious word . . . commonly means "fraud pretending to be an artist." Don't use it unless you mean to be insulting. Amoral, Immoral: An amoral person is one who does not know the difference between right and wrong. An immoral person knows the difference but does wrong anyway. Reaction: A reaction is a sudden and spontaneous response to a stimulus, such as jumping, shrieking, or fainting. The word is not properly used as a fancy word for any kind of considered response. If you circulate a policy document, you can ask others for their opinions, or for their criticisms, but do not ask them for their reactions unless you hope to hear responses like "I burst into uncontrollable laughter."

Say What You Mean! lays down the laws for writing simple, effective, and unambiguous sentences, the kind that deliver the facts, influence opinion, and make things work throughout the English-speaking world - and that you and every other American grown-up must know how to write if you want to be understood by others. Since it was published in England in 2001, Say What You Mean! has become a must-read among journalists, writers, educators, and language-mavens - everyone who needs to know the difference between lesser and fewer, disinterested and uninterested, and hire, rent, and charter.

The standard style guide of the Christian publishing industry, The Christian Writer's Manual of Style, 4th Edition, compiled by veteran Zondervan editor Robert Hudson, contains clear guidance on style questions related to religious writing, including many topics not addressed in other references or online. Nearly half of this fourth revision is made up of new material, including information about turning blogs into books, the effects of digital media on writing, "adverbial doubles," "vanishing accents," word-choice strategies, endorser guidelines, and much more. It also contains an all-new "Word List" which makes up more than a third of the book. The most needful information remains—entries on capitalization, abbreviation, citations, fictional dialogue, and more—but it has all been updated to keep pace with changes in English language usage. This fourth edition also corresponds with The Chicago Manual of Style, 16th Edition (2010), though it isn't afraid to chart new territory where that reference is unhelpful on issues of religious writing. Comprehensive yet easy-to-use, The Christian Writer's Manual of Style, 4th Edition, is a go-to resource for Christian authors, pastors, teachers, copy writers, editors, proofreaders, publishing and ministry professionals, executive assistants, and students—anyone who writes or edits as a part of their work or study—and for grammar aficionados everywhere.

Describing Prescriptivism provides a topical and thought-provoking analysis of linguistic prescriptivism in British and American English, from a historical as well as present-day perspective. Focusing on usage guides and usage problems, the book takes a three-fold approach to present an in-depth analysis of the topic, featuring: a detailed study of the advice provided in usage guides over the years; an authoritative comparison of this advice with actual usage as recorded in British and American corpora, including the HUGE (Hyper Usage Guide of English) database - developed specifically to enable this line of study - as well as more mainstream corpora such as COCA, COHA and the BNC; a close analysis of the attitudes to particular usage problems among the general public, based on surveys distributed online through the "Bridging the Unbridgeable" research project's blog.\* With extensive case studies to illustrate and support claims throughout, this comprehensive study is key reading for students and researchers of prescriptivism, the history of English and sociolinguistics. \*Found at <https://bridgingtheunbridgeable.com/>
