Welcome to Marwencol tells the story of Mark Hogancamp. Mark is the subject of the movie, Welcome to Marwen (December 2018) starring Steve Carrell • Welcome to Marwencol is a hybrid art and storybook about Mark Hogancamp and his imaginary World War II-era town of Marwencol. • Learn about Hogancamp's life before and after the attack which left him with no memory of the thirty-eight prior years of his life, including his ex-wife, family, artistic talents, or military service • This astonishing story of the redemptive power of art shows Hogancamp's process with behind-the-scenes photos, capsule biographies of each Marwencol character, descriptions of each miniature building, and Mark's insight into constructing and photographing his world • Includes 100 pages of Hogancamp's photographs and stories laid out as a graphic novel "Fight scenes, dramatic rescues and love triangles are painstakingly arranged to play out before Mr. Hogancamp's camera. The resulting images are startlingly lifelike, poignant and, for him, therapeutic."—The New York Times

The definitive international history of one of the world's most successful rally cars. Covers every Lancer model - including all special editions, and Dodge, Colt, Plymouth, Valiant, Eagle, Proton and Hyundai variants - from 1973 to date. Includes a Foreword by Shinichi Kurihara, Mitsubishi's Evo team leader.

Being a gearhead matters. Much as we love reading about the latest hypercar or money-no-object custom project, we believe vehicles owned - and loved - by gearheads like us are just as meaningful, if not more so. Our readers are self-made. We buy vehicles for specific reasons and we learn how to maintain, modify, and repair them ourselves. (With a little help from our friends, of course!) Everyone you meet in an issue of Gearbox Magazine is cool. If you spotted them in a parking lot, you could walk right up to them and strike up a conversation. And chances are you might end up lifelong friends. We're not looking to get rich and forget our roots. We're trying to make a few bucks so we can spend more time helping gearheads build high performance machines & lives. This issue isn't perfect, but neither
