Social Studies - Glencoe

Modern Real Estate Practice in New York, . 13 th Edition Price: \$45.00 Modern Real Estate Practice in New York is the latest update of the book that has educated more New York real estate students than any other text.

The 11th Edition of Modern Carpentry - Essential Skills for the Building Trades includes two new chapters, covering framing with steel and the building of decks and porches, as well as numerous text and illustration changes to depict current materials and practices. The text provides detailed coverage of all aspects of light frame construction, including site preparation and layout; foundations; framing and sheathing; roofing; windows and doors; exterior finish; stairs; cabinetry, and finishing procedures for interior walls, floors, and ceilings. Beyond a solid discussion of building basics, Modern Carpentry covers special topics such as constructing stairs, chimneys, fireplaces, and decks. Systems-built (prefabricated) houses, remodeling, cabinet installation, solar construction, and painting and decorating are also covered. To familiarize carpentry students with other aspects of the building trades, the text includes chapters on mechanical systems: electrical, plumbing, and HVAC. Throughout the text, safe working practices are emphasized, and special attention is paid to proper use of the latest tools, materials, and prefabricated components.\* Chapters are arranged in a logical sequence, similar to the order in which the phases of building construction

are performed. \* Includes many step-by-step procedures set as boxed features. \* Uses clear, nontechnical language and detailed illustrations to provide the most easy-to-understand presentation of any carpentry book on the market. \* Provides useful career information in a dedicated chapter and more than 20 "On-the-Job" features throughout the book that describe specific building trades occupations. \* Provides detailed coverage of both residential and light commercial construction. This bundle includes a copy of the Student Text and an Online Text (6-Year Classroom Subscription). Students can instantly access the Online Text with browser-based devices, including iPads, netbooks, PCs, and Mac computers. With G-W Online Textbooks, students easily navigate linked table of contents, search specific topics, quickly jump to specific pages, enlarge for full-screen reading mode, and print selected pages for offline reading.

- Uses clear, nontechnical language and detailed illustrations to provide the clearest presentation of any carpentry book on the market.- Provides detailed coverage of residential and light commercial construction.- Units are arranged in a logical sequence--similar to the order in which various phases of construction are performed.- Includes step-by-step procedures, which are set off from the text.- Entire unit devoted to safety, plus additional safety material printed in red type throughout the text.- Math appendix covers skills required for carpentry.

Beginning with the fundamentals of carpentry work within a domestic construction setting, this book outlines which tools are required, and examines their care and proper use before covering the interpretation of technical drawings. It goes on to explain a wide range of first-fixing operations prior to plastering, and second-fixing operations after plastering. Each chapter covers the subject in great detail, with step-by-step illustrations and text to provide the reader with a complete picture of the sequence of work required to carry out each job. Goring's Manual of First and Second Fixing Carpentry has been updated to take recent developments in the building trades into account, and is also fully up to date with current industry best practice. Printed in full colour throughout, a new chapter has been incorporated to address the sharpening of traditional saws. The breadth of coverage and easily accessible 'how-to' approach makes this book an ideal resource for apprentices taking NVQs and those following Construction Awards within the Wood Occupations from City & Guilds/Construction Skills. The technical detail and practical focus ensures that this book will be a vital purchase for all students, and an essential reference for any experienced carpenter or joiner.

The intricate system of contemporary light frame building construction is presented in straightforward, step-by-step procedures in this popular bestseller. CARPENTRY, 5TH EDITION follows the logical path of a residential project, using reader-friendly presentations and easy-to-follow diagrams to explore building plans, sitework and layout, footings and foundations, framing, interior and exterior surfaces, cabinetry and flooring, and more. This text provides a unique blend of all the need-to-know information for both traditional and up-to-date construction practices. Beginning with the layout of the building and finishing with trim carpentry, each section features step-by-step procedures for key carpentry jobs, critical safety information, tips of the trade, and insight into the construction industry. Stunning, photo-realistic drawings convey many concepts and procedures with detailed, easy to understand information. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Rustic Italian style meets Scandinavian design in this stunning collection of simple woodworking projects. Woodworking husband-and-wife duo Andrea Brugi and Samina Langholz invite you into their magical world, where their Scandinavian sensibility for clean design is balanced with organic and aged imperfection inspired by their Tuscan home. Discover some of their key woodworking techniques through twenty simple projects for useful and decorative objects for the home—from cutting boards and simple doorstops to benches and dining tables. With striking photography, step-by-step instructions, and information on the types of wood and tools required for each project, you'll have everything you need to start handcrafting your own woodworking masterpieces that celebrate the beauty of uniqueness and combine modern design with rustic warmth. "Our ethos is very simple: do more with less; let each project unfold organically; always be open to possibilities; welcome mistakes and learn from them; let simple, found, and readily available materials embolden your design and decisions."—from the introduction

Shop tested expert advice for woodworkers on how to build 50 attractive and functional woodworking projects for all areas of the house from storage for the kitchen and the outdoors, to furniture and heirlooms. An ideal resource for woodworkers looking for a new project or wanting to spruce up their home, this book has plans for projects that can take a few hours, or up to a weekend to complete.
