The 11th Edition of Modern Carpentry - Essential Skills for the Building Trades includes two new chapters, covering framing with steel and the building of decks and porches, as well as numerous text and illustration changes to depict current materials and practices. The text provides detailed coverage of all aspects of light frame construction, including site preparation and layout; foundations; framing and sheathing; roofing; windows and doors; exterior finish; stairs; cabinetry, and finishing procedures for interior walls, floors, and ceilings. Beyond a solid discussion of building basics, Modern Carpentry covers special topics such as constructing stairs, chimneys, fireplaces, and decks. Systems-built (prefabricated) houses, remodeling, cabinet installation, solar construction, and painting and decorating are also covered. To familiarize carpentry students with other aspects of the building trades, the text includes chapters on mechanical systems: electrical, plumbing, and HVAC. Throughout the text, safe working practices are emphasized, and special
