Effectively contribute to the attainment of high quality education, and the production of effective, efficient and skilled nurses who are able to respond to the health needs of the populations they serve. This will enable the attainment of objectives one and two of the Global strategy on human resources for health: Workforce 2030 and is also a priority in the updated Global strategic directions on nursing and midwifery 2016-2020. The aim of this publication is to provide a clear outline of Nurse Educator Core Competencies and performance expectations, which can form the basis for developing a competence-based curriculum encompassing the cognitive, affective and psychomotor skills and behaviors expected of nurse teachers. The competencies are

intended to help guide the educational preparation of nurse teachers; ensure educational quality and accountability; and, ultimately, contribute to improving the provision of nursing care and outcomes of health services. Much effort has gone into the preparation of the Nurse Educator Core Competencies. It is the aim of the World Health Organization that they will facilitate nurse educators to attain increased proficiency in assisting student nurses to acquire all the knowledge, skills and attitudes necessary to practice nursing effectively in the 21st century.

For more than a quarter of a century there has been significant

International migration of skilled health workers, but in the last decades, with critical changes in both sending and receiving countries, few parts of the world are now unaffected by the consequences of the migration of health workers, either as sources, destinations or sometimes both. The book takes the understanding of health worker migration substantially beyond the more scattered and fragmented papers and anecdotes that largely existed before, into the first consolidated analysis. In doing so it reveals its exceptional significance for both sending and receiving countries (in economic, social and political terms), provides the only analysis of remittances of health workers, casts new light on gender, globalisation, transnational linkages, the trade in services (linked to GATS)
