Monks and Mystics gives us the best of both worlds: by giving us historic fact combined with good story telling. What I Dislike: My only gripe with this book is its treatment of the Crusades. Unfortunately, many people have forgotten the fact that Muslim armies invaded Europe, hoping to make them Islamic lands, and Monks and Mystics doesn't seek to remind anyone of this.

In the second volume, Milne details the anatomy, physiology, energetics, and techniques that are the essential core of visionary craniosacral work. His particular genius lies in his ability to weave a delicate tapestry of narrative, poetry, and scientific fact into a fascinating and insightful exposition of the visionary healing arts.

To learn to read a text for the portals of silence that are implicit in it is to gain a powerful tool for supporting and expanding one's silence, and to open the reader to the insight that ensues. The sort of reading proposed in this volume is both costly and rewarding. These pages invite readers once again to look at their own minds, to reflect on what is happening there, and to understand the essential role of silence for being human, and for living our own truth with one another.

In Cistercian Stories for Nuns and Monks, Martha G. Newman shows how Engelhard of Langheim's late twelfth-century tales about Cistercian monks illuminate the religiosity of Cistercian nuns. Engelhard's writings locate a sacramental value in everyday objects and behaviors and teach a spiritual formation that nuns and monks could share.

This book covers a period (1336-1485) neglected by historians, when many features of the modern world were germinating under the surface of medieval institutions: the age of Chaucer, Langland, Bradwardine and Wyclif, of the new Nominalism and the Conciliar Movement. David Knowles devotes part of his book to narrative, and part to analysis. The great abbeys are at their height of outward splendour, we see the building schemes of Ely and Glouster, the impact of the Black Death, and the recovery from it; we see the monks and friars in controversy at Oxford, the attacks of Wyclif and the Lollards, helped by the satire of the poets; the conservative reaction, and the foundations and reforms of Henry V, followed by the Indian summer of the feudal aristocracy.

This book constitutes the second volume of a three-volume study of Christian testimonies to divine suffering: God's Wounds: Hermeneutic of the Christian Symbol of Divine Suffering, vol. 2, Evil and Divine Suffering. The larger study focuses its inquiry into the testimonies to divine suffering themselves, seeking to allow the voices that attest to divine suffering to speak freely, then to discover and elucidate the internal logic or rationality of this family of testimonies, rather than defending these attestations against the dominant claims of classical Christian theism that have historically sought to eliminate such language altogether from Christian discourse about the nature and life of God. This second volume of studies proceeds on the basis of the presuppositions of this symbol, those implicit attestations that provide the conditions of possibility for divine suffering-that which constitutes divine vulnerability with respect to creation-as identified and examined in the first volume of this project: an understanding of God through the primary metaphor of love ("God is love"); and an understanding of the human as created in the image of God, with a life (though finite) analogous to the divine life-the imago Dei as love. The second volume then investigates the first two divine wounds or modes of divine suffering to which the larger family of testimonies to divine suffering normally attest: (1) divine grief, suffering because of betrayal by the beloved human or human sin; and (2) divine self-sacrifice, suffering for the beloved human in its bondage to sin or misery, to establish the possibility of redemption and reconciliation. Each divine wound, thus, constitutes a response to a creaturely occasion. The suffering in each divine wound also occurs in two stages: a passive stage and an active stage. In divine grief, God suffers because of human sin, betrayal of the divine lover by the beloved human; divine sorrow as the passive stage of divine grief; and divine anguish as the active stage of divine grief. In divine self-sacrifice, God suffers in response to the misery or bondage of the beloved human's infidelity; divine travail (focused on the divine incarnation in Jesus of Nazareth) as the active stage of divine self-sacrifice; and divine agony (focused on divine suffering in the crucifixion of Jesus of Nazareth) as the passive stage of divine self-sacrifice.
