This guidebook describes 35 circular walking routes in the Dark Peak - the wilder northern area of the Peak District distinguished by its dark gritstone. The walks range between 4 and 13.5 miles in length (6.5km to 22km), varying in terms of difficulty: some involve steep ascents and descents, uneven ground and pathless terrain, and demand a good level of navigational competence. The book also outlines 5 longer routes (3 linear; 2 circular) of 15.5 to 28 miles (25-45km) for those wishing to explore the area further, including a classic 'skyline' circuit of the Kinder Scout plateau. Detailed route description and 1:50,000 OS mapping are provided for each route, along with information on nearby points of interest and facilities. Icons of the Dark Peak - such as Kinder Scout, Stanage Edge, the Roaches and Mam Tor - are included, however, the focus is on exploring the lesser-known corners of the region. The routes take in striking gritstone edges, distinctive rock formations, open moorland, steep-sided valleys and hidden waterfalls. The Dark Peak features a wild landscape of sweeping moorland and big skies. Easily accessible from Sheffield, it boasts a wealth of natural, geological, historical and cultural interest - and some

A guidebook to 40 circular walks in in two of Lancashire's largest Areas of Outstanding Natural Beauty - the Forest of Bowland, an area of 310 square miles, and the 'bewitching' countryside of Pendle to the south. The walks range between 3 and 12.5 miles in length and are all illustrated with extracts of OS mapping. The diverse range of routes include four Marilyns - Ward's Stone, Pendle Hill, Longridge Fell and Fair Snape Fell. The walks are spread across the region, with bases including Caton, Dunsop Bridge, Slaidburn, Clitheroe and Pendle. All the walks are punctuated with snippets of information on the natural and cultural history of the region, from witches to wildflowers. The Forest of Bowland and Pendle provide vastly differing terrain - from the lush farmlands of the Ribble valley to the more rugged

Paul Baker has experienced many ups and downs in his life, but it's how he dealt with these moments and learned from them that really sets his story apart. He is accustomed to failure, having learned how to turn negative experiences into positive outcomes, and he continues to remain focused on his ambitions by continually setting himself new goals. Covering themes such as ambition, determination, and the importance of mindset and exercise when it comes to personal growth, Finding Fame illustrates Paul's drive to constantly improve both himself and his life. Paul has enjoyed many major milestones over the years,

from being awarded the Kyokushinkai Karate black belt at just age 16 to serving with the British Army, a career that led him all over the world to places like Belize and the Falkland Islands. This book showcases how important it is to fail in life – to get knocked down but then to rise up again, stronger and wiser and ready for the next obstacle. His martial arts background and army training taught Paul the importance of discipline and resilience, traits he took with him and used in all other areas of his life. Underlining everything he does is his knowledge of how your mindset can set you up for success, and the understanding that bad experiences aren't ultimately bad, as they can teach you the tools and techniques you need to navigate through the challenges of life. Paul also understands the power of setting goals in life, and in being ambitious with those goals. Without a clear, set plan, you won't know which direction to go in – which path to take – and, even if you end up going down a path you hadn't previously considered, you simply have to take that first step. What you learn along the way is often far more important than the destination you initially had in mind. Paul acknowledges the impact his environment had on him when he was younger, from his home life to his schooldays and his extracurricular activities. He attributes his positive growth mindset to several people from his youth: his parents, his middle school teacher, and his martial arts instructors. These individuals moulded who he was as a person and encouraged him to view circumstances and obstacles from a different perspective; by shifting his mindset, he opened himself up to all the wonderful opportunities this world has to offer. Exercise is

another key theme in the book; Paul looks at how it's helped him physically and mentally. As he says, the earlier you start physical activity, the faster the payback – in all areas of your life. Not only does exercise improve your health and help with weight loss, but it also encourages a happier, more positive mindset, increases your energy levels, and gives you the confidence required to go after what you really want. Without exercise, Paul simply would not have accomplished everything he's achieved in his life so far. Finding Fame also looks at the music and world events that shaped Paul's adolescence as he grew up in the '80s, as well as his fitness victories – including the time he climbed Mont Blanc, a personal challenge he set himself to celebrate his 40th birthday. This book is an excellent example of how mindset is everything, how failure is a learning experience, and that – in order to keep growing as a person – you simply must carry on, no matter what. Finding Fame will give you the knowledge, motivation, and inspiration you need to identify your goals and go after what you really want in life.

pinpointing each location. There's also practical tips on exploring the great British countryside from the rugged Pembrokeshire coastline to the picturesque valleys of the Yorkshire Dales.

This guidebook describes 40 day walks across Norfolk ranging in length from 4 to 12 miles. The walks are divided into five sections: the northeast coast and the Broads; south Norfolk, the Yare and Waveney; North Norfolk and the Coast; Central Norfolk and Breckland; and West Norfolk and the Fens. Each walk is described step-by-step, illustrated with 1:40K OS map extracts and packed with historical, geological and other information about the landscape the route passes through. All walks are circular, along footpaths, bridleways and quiet country lanes, and some use parts of long-distance paths, including the Peddars Way, Norfolk Coast Path, Boudica's Way and Weavers Way. The Fenland region of Norfolk's far west is flat and low-lying, as are the marshes and waterways of the Broads in the east, but between these two extremes there is a great deal of topography going on. The county is far more varied than most outsiders imagine, with several distinct and unique landscapes. As well as Broads and the Fens, it has the sandy Brecks, rolling farmland, ancient woodland, meandering rivers and the gorgeous North Norfolk coast with its beaches, shingle banks, salt marshes and tidal mud flats.
