- Knowledge regarding the pharmacology and toxicology of illicit drugs;

Medical Review Officer Manual - SAMHSA

The responsibilities of an MRO to interpret results have largely remained the same between the Guidelines effective October 1, 2010 (73 FR 71858) and these Guidelines. As stated in Section 13.5(c) of these Guidelines, "if the donor provides a legitimate medical explanation (e.g., a valid prescription) for the positive result, the MRO reports the test result as negative to the agency."

Federal Register :: Mandatory Guidelines for Federal ...

Medical Review Officer. Medical Review Officers (MRO) are licensed physicians who have been trained and certified to review the lab results and to validate whether a test is positive. MROs receive laboratory confirmed urine drug test results; determine whether there is a legitimate medical explanation for a laboratory confirmed positive, adulterated, or substituted result; and review and report a verified result to the designated employer representative (DER) in a timely and confidential manner.

created to help prepare MROAs for certification and to keep the entire MRO team operating at a peak level of professionalism and efficiency. Offering a complete view of the medical review process, the Medical Review Officer Team Manual covers business, scientific, legal, ethical and logistical issues. It is an ideal practical manual for MROs and MROAs and those who work with them and use their services, including employers and others interested in workplace drug testing. The guide can also be used as a companion to Swotinsky and Smith's previously published Medical Review Officer's Manual, providing "how to" specifics to help the entire MRO team apply the science and art of medical review. Topics in the Team Manual include core competencies established by the MROCC for MRO Assistant certification, as well as issues related to the smooth functioning of a Medical Review department: The roles and responsibilities of the various individuals and team members involved in drug and alcohol test ordering, collection, transportation, processing, and reporting Donor rights at the collection site and in the review process DOT and HHS requirements and regulations Urine specimen procedures, including when and how to look for evidence of tampering, adulteration, or substitution Policies and procedures, including chains of documentation, screening and confirmation testing, and split specimen analysis for reconfirmation What elements of a review may be completed by staff, and which must be personally completed by the Medical Review Officer How to contact the donor and what to do when the donor can't be contacted How HIPAA and other regulations aff
