and respond to natural disasters? How are the causes of natural disasters explained in history, how are they explained today? This volume investigates relationships between forces of nature and human culture in a multidisciplinary context bridging science and the humanities. Forces of nature and cultural responses is divided into four sections: (1) ball lightnings, (2) earthquakes and tsunamis, (3) volcanic eruptions and plagues, and (4) hurricanes and floodings. Specifically, Section 1 investigates theories and case studies of ball lightning phenomena. Section 2 includes

a psychological study on the impact of earthquakes on academic performance, a study on tsunami vulnerability and recovery strategies in Thailand and a study on the social and economic aftermaths of a tsunami and a hurricane in Hawaii. Section 3 consists of a chapter on volcanic eruptions and plagues as well as cultural responses in Ancient Times and a study on contemporary vulnerability and resilience under chronic volcanic eruptions. Section 4 investigates the impact of hurricane Katrina on the current jazz scene in New Orleans and cultural responses to floodings in The

Since 1958 the Maritime Administration has continuously conducted instructions in use of collision avoidance radar for qualified U.S. seafaring personnel and representatives of interested Federal and State Agencies. Beginning in 1963, to facilitate the expansion of training capabilities and at the same time to provide the most modern techniques in training methods, radar simulators were installed in Maritime

Administration's three region schools. It soon became apparent that to properly instruct the trainees, even with the advanced equipment, a standardize up-to-date instruction manual was needed. The first manual was later revised to serve both as a classroom textbook and as an onboard reference handbook. This newly updated manual, the fourth revision, in keeping with Maritime Administration policy, has been restructured to include improved and more effective methods of plotting techniques for use in Ocean, Great Lakes, Coastwise and Inland Waters navigation.
