The Kindle e-book reader has always displayed its own “location numbers” rather than page numbers. Why? Because page numbers make no sense on an e-book. If you make the type larger or smaller, the page numbering would change. A 100-page book becomes 200 pages long when you double the type size.

A Hispanic family's preparation for dinner is presented in easy words in both Spanish and English. Warm illustrations depict an affectionate family enjoying their daily routine. This is the first book in Pat Mora's My Family/Mi Familia series, a four-book collection of easy-read bilingual books.

Part of Milet's new line of bilingual board books, the series focusing on numbers features a two-page spread on each featured number, with a large image on the right and four smaller images on the left of objects in quantities of the number. The images are photographs embellished with illustration, so they are fresh and creative but still simple and clear. Below each image is the word for the object in English and the second language in large, bold text. Children can explore the concept of numbers and practice counting while they learn the words for objects around them in two languages.

My First Book of Korean Words is a beautifully illustrated book that introduces young children to Korean language and culture through everyday words. The words profiled in this book are all commonly used in the Korean language and are both informative and fun for English-speaking children to learn. The goals of My First Book of Korean Words are multiple: to familiarize children with the sounds and structure of Korean speech, to introduce core elements of Korean culture, to illustrate the ways in which languages differ in their treatment of everyday sounds and to show how, through cultural importation, a single word can be shared between languages. Both teachers and parents will welcome the book's cultural and linguistic notes, and appreciate how the book is organized in a familiar ABC structure. Each word is presented in Hangeul, as well as in its Romanized form. With the help of this book, we hope more children (and adults) will soon be a part of the nearly 80 million people worldwide that speak Korean!

In this counting book a starfish with five arms illustrates the number five, eight reindeer the figure eight, eighteen crayons the number eighteen, and so on.

EARLY LEARNING / EARLY LEARNING CONCEPTS. The newest title in Milet's popular board book series, My First Bilingual Book - A Day features a one-page spread for each daily activity that children usually partake in, with a brief descriptor of the activity underneath in both Urdu and English. This means that as well as being bilingual the title is multicultural; readers hailing from the cultures associated with each language will all equally find something to relate to. Illustrations feature clean, bold lines and block colours in the style of children's classics such as Miffy or Elmer. Ages 0+

Vibrant illustrations captioned in English and Turkish present the numbers from one to ten, as well as the names of a variety of familiar items.

****Winner Creative Child Magazine 2018 Book of the Year Award** **2017 Freeman Book Award Honorable Mention for Children's Literature**** My First Book of Vietnamese Words is a beautifully illustrated book that introduces Vietnamese language and culture to young children through everyday words. This Vietnamese children's book teaches in a playful way—combining the familiar ABC rhyming structure with vivid illustrations to encourage young children's natural language learning abilities. Words kids use every day in English are joined by words unique to Vietnamese culture to give kids a glimpse of Vietnamese life and to show how, despite cultural differences, children all over the world have a lot in common. Linguistic and cultural notes are added to enhance the kids' adventure in a land that's modern yet filled with beautiful traditions.
