Since independence in 1990, Namibia has witnessed only one generation with no memory of colonialism - the 'born frees', who voted in the 2009 elections. The anti-colonial liberation movement, SWAPO, dominates the political scene, effectively making Namibia a de facto one-party state dominated by the first 'struggle generation'. While those in power declare their support for a free, fair,

and just society, the limits to liberation are such that emancipation from foreign rule has only been partially achieved. Despite its natural resources Namibia is among the world's most unequal societies and indicators of wellbeing have not markedly improved for many among the former colonized majority, despite a constitution enshrining human rights, social equality, and individual liberty. This book analyses the transformation of Namibian society since Independence. Melber explores the achievements and failures and contrasts the narrative of a post-

This is the first book to bring together diverse and interdisciplinary insights into the development of the contemporary sport volunteering phenomenon. Including case studies from Australia, Cameroon, Namibia, Norway, Russia, the UK, the US and Zambia, this substantial volume provides a truly international perspective on the changing roles of sport volunteering. Showcasing the latest research from across the globe, International Sports Volunteering is a valuable resource for any course on sport studies, sport event management, sport development, sport tourism, sport geography, the sociology of sport or leisure studies.

The book focuses on the history and identity of Namibian Czechs, originally a group of prominent child war refugees admitted by the Czechoslovak government in 1985 for education as an expression of international solidarity assistance to SWAPO liberation movement. The educational project with elements of social engineering was interrupted in 1991 due to political changes in both countries. The relocation of the children to Namibia had a dramatic impact on their future lives. Namibian Czechs never fully integrated into Namibian

development at the intersections of multiple scientific fields and it provides measures of both objective and subjective quality-of-life. The scholarly contributions in the text are based on original research and it spans fields of research such as cultures of positivity, wellbeing, literacy and multilingualism, digital and mobile technologies, economic growth, food and nutrition, health promotion, community development, teacher education and family life. Some chapters take a broad approach and report on research findings involving

thousands, and in one case millions, of participants. Other chapters zoom in and illustrate the importance of specificity in quality-of-life studies. Collectively, the handbook illuminates the particularity of quality-of-life in Africa, the unique contextual challenges and the resourcefulness with which challenges are being mediated. This handbook provides empirically grounded conceptualizations about life in Africa that also encapsulate the dynamic, ingenious ways in which we, as Africans, enhance our quality-of-life.

The Namibian constitution makes full provision for education as a fundamental human right and freedom. Three years into independence, as part of the government's educational policy, the 'Education for All Policy' was launched as a stepping stone to free quality education. However, inequities have become widely pronounced within the Namibian educational system. The ten chapters in this collection interrogate the strengths and limitations of education as an instrument of social change and question whether or not the Namibian educational objectives and practices do develop and help to sustain a democratic culture in Namibia. The authors in the collection have drawn material from their own teaching and research experience across the fields of education and
