This support pack has been fully revised and updated with additional guidance on developing the new specifications, activities, ICT support, technician cards, and additional revision and assessment material including past paper questions and model answers. Resources suitable for photocopying include: help Sheets and extension sheets for practical activities; and investigations and content (including further applications and practice). Also included are topic notes, topic maps, OHP sheets of key diagrams and mark schemes with answers to all exam questions in the textbook.

Prentice Hall Biology utilizes a student-friendly approach that provides a powerful framework for connecting the key concepts of biology. New BIG IDEAs help all students focus on the most important concepts. Students explore concepts through engaging narrative, frequent use of analogies, familiar examples, and clear and instructional graphics. Now, with Success Tracker(tm) online, teachers can choose from a variety of diagnostic and benchmark tests to gauge student comprehension. Targeted remediation is available too! Whether using the text alone or in tandem with exceptional ancillaries and technology, teachers can meet the needs of every student at every learning level. With unparalleled reading support, resources to reach every student, and a proven research-based approach, authors Kenneth Miller and Joseph Levine continue to set the standard. Prentice Hall Biology delivers: Clear, accessible writing Up-to-date content A student friendly approach A powerful framework for connecting key concepts

The Nelson Modular Science series is made up of three books divided into single, double and triple award modules presented in an accessible format. Book 1 covers the six single award and one coursework modules; Book 2 contains six double award modules; and Book 3 covers the six triple award modules. Each module is covered in self-contained units. This teacher's file includes practical support sheets and addresses Sc1 investigations. Works sheets are provided to integrate the use of ICT throughout science. Additional GCSE-style questions and modular tests should enhance learning and recall of information.

Written by teachers and fully covering the 2002 A Level maths specifications for biology, this text is useful for both classroom work and homework exercises. Relevant for AS and A2 Levels of study and designed to be accessible and friendly in format, its aim is to provide clear and concise explanations of mathematical concepts and how these are then applied in biology. Worked examples are included throughout encouraging students to grasp the subject matter with ease. Examination style questions and answer sections provide an opportunity for continuous progression and to consolidate learning.

The Insight Meditation twelve-month correspondence course is an unparalleled home immersion in vipassana meditation and philosophy, presented by the cofounders of the Insight Meditation Society, Sharon Salzberg and Joseph Goldstein. Cultivate the sacred environment of a retreat in your own home, with the help of a personal instructor. Includes twelve sequential lessons, an 88-page workbook with interactive exercises, and more.

Biology For You has been updated to offer comprehensive coverage of the revised GCSE specifications. It can be used with either mixed ability or streamed sets and higher tier materials are clearly marked.
