An invaluable self-assessment tool for emergency medicine trainees in Australasia. Emergency Medicine MCQs is an essential resource for Australasia's emergency medicine trainees. A practical self-assessment tool, the book assists trainees as they expand and refine their knowledge of emergency medicine, and will ultimately help them pass the Australasian Emergency Medicine Fellowship examination (FACEM). The multiple-choice questions in

Emergency Medicine MCQs cover both the core and non-core areas in the Australasian Emergency Medicine Fellowship. Using this text, trainees can revise alone or with their peers to identify the areas in which they need further development. The curriculum is divided into three main areas where trainees require expert level of knowledge, high level of knowledge and general level of knowledge. It covers important clinical problems encountered in everyday emergency medicine practice – from cardiovascular emergencies through to obstetric and gynaecology emergencies, disaster management and toxicology. As well as being ideal for emergency medicine trainees qualifying through AECM, the book is a useful resource for GPs taking the GEM qualification through ACEM and JMOs ‘ on call ’ . Plus, this emergency medicine text is accompanied by an app – a separate product containing 180 randomised multiple-choice questions on all the topics within the book.

Accompanying CD-ROM contains: contents of book; continuous updates; slide image library; references linked to MEDLINE; pediatric guidelines; case studies; review questions.

This is an indispensable companion to the ‘ Sunflower book ’ – the highly acclaimed Illustrated Textbook of Paediatrics (6th Edition). It is essential for those who wish to test or improve their learning, or for exam revision for undergraduate or early postgraduate speciality exams. It includes high quality questions, some including images or diagrams, on important topics covering the paediatrics and child health curriculum. Explanations about both correct and incorrect answers are provided. The authors are highly experienced examiners and question writers, ensuring that the questions are similar to those encountered in exams or help explain difficult topics. Over 250 Single Best Answer questions Over 200 question stems for Extended Matching questions Explanations provided not only of the correct but also of incorrect answers Clinical photographs included to ask questions about clinical signs

Ltd

Canadian Maternity and Pediatric Nursing prepares your students for safe and effective maternity and pediatric nursing practice. The content provides the student with essential information to care for women and their families, to assist them to make the right choices safely, intelligently, and with confidence.

Welcome to the 21st Edition of Nelson Textbook of Pediatrics - the reference of choice among pediatricians, pediatric residents, and others involved in the care of young patients. This fully revised edition continues to provide the breadth and depth of knowledge you

expect from Nelson, while also keeping you up to date with new advances in the science and art of pediatric practice. Authoritative and reader-friendly, it delivers the information you need in a concise, easy-to-use format for everyday reference and study. From rapidly changing diagnostic and treatment protocols to new technologies to the wide range of biologic, psychologic, and social problems faced by children today, this comprehensive 2-volume reference keeps you on the cutting edge of the very best in pediatric care. Includes more than 70 new chapters, including Postural Orthostatic Tachycardia Syndrome (POTS), Rare and Undiagnosed Diseases, Approach to Mitochondrial Disorders, Electronic Nicotine Delivery Systems, Zika, update on Ebola, Epigenetics, Autoimmune Encephalitis, Global Health, Racism, Media Violence, Strategies for Health Behavior Change, Positive Parenting, and many more. Features hundreds of new figures and tables throughout for visual clarity and quick reference. Offers new and expanded information on CRISPR gene editing; LGBT health care; gun violence; vaccinations; immune treatment with CAR-T cells; new technology in imaging and genomics; new protocols in cancer, genetics, immunology, and pulmonary medicine; and much more. Provides fresh perspectives from four new associate editors: Nathan J. Blum of The Children's Hospital of Philadelphia; Karen Wilson of Mt. Sinai School of Medicine in New York; Samir S. Shah of Cincinnati Children's Hospital Medical Center; and Robert C. Tasker of Boston Children's Hospital. Provides regular updates online, written exclusively for Nelson. Remains your indispensable source for definitive, evidence-based answers on every aspect of pediatric care. Enhanced eBook version included with purchase. Your enhanced eBook allows you to access all of the text, figures, and references from the book on a variety of devices.

Test Reviews for Pediatric Board Examinations. This book contains case vignettes and data interpretation questions in the multiple choice format with comprehensive explanations covered in 18 chapters of pediatric topics. This is an essential reading material for candidates for both Board examinations and the USMLE. Many clinical pearls and grey cases a pediatrician can't afford to miss. Written by a pediatric sub-specialist with many years of clinical experience in pediatrics and resident education.
