from the 1950s to the present. The focus is on ballistic missile defense, from the early NIKE-HERCULES missile program through the SAFEGUARD acquisition site allowed by the 1972 ABM Treaty to the more advanced 'Star Wars' concepts studies toward the end of the century. [What is] covered is not only the technological response to the threat but the organizational and tactical development of the commands and units responsible for the defense mission"--CMH website.

The faculty, staff and students of Air University will find that this Guide is designed to unify their writing stylistically and to give them information about publishing with AU Press. Rapid expansion in the field of electronic media - especially the internet - has made AU research and writing increasingly accessible. Based on recognized but forward-looking principles of standard English usage, this Guide provides reliable guidance on such matters as punctuation, capitalization, abbreviation, documentation, numbers, spelling, and much more.

This is the Ultimate Nike sneaker coloring book featuring over 50 Hand-Drawn models and drawing guides. Designed by KicksArt to be the perfect Nike coloring book for sneakerheads & future footwear designers alike! BEFORE YOU BUY: ALL of the coloring stencils in this book are available for FREE on my website www.KicksArt.com Help yourself and print out as many as you'd like! I recommend looking through the inventory on the site and printing out a few to decide if purchasing this book is necessary or not. I've designed this book for those who'd like a complete Nike coloring resource made with the same care & love as the hundreds of stencils done on the website. What's included: 1) Hand-drawn illustrations of 50+ popular Nike sneakers including; Air Max's, Foamposite's, KD's, Kobe's, LeBron's, Yeezy's, and many more! 2) Drawing guides for over 25 sneakers. 3) The original release year and lead designer name credit. 4) Both large and small coloring stencils available for each sneaker. 5) Swatch spaces to test out color combinations/patterns. 6) Blank tester sheet at the end of the book to try supplies out. Q: Why are you selling a book of coloring stencils that are already free on your website? A: Because I'm a sneakerhead who would've wanted both options available back when first falling in love with sneakers. I'm proud to now be able to create that option for others! For any questions or comments, reach out to me over at owner@KicksArt.com KicksArt is NOT affiliated with Nike Inc. or Jordan Brand in any way (currently).

Who are we, and how do we relate to each other? Luciano Floridi, one of the leading figures in contemporary philosophy, argues that the explosive developments in Information and Communication Technologies (ICTs) is changing the answer to these fundamental human questions. As the boundaries between life online and offline break down, and we become seamlessly connected to each other and surrounded by smart, responsive objects, we are all becoming integrated into an "infosphere". Personas we adopt in social media, for example, feed into our 'real' lives so that we begin to live, as Floridi puts in, "onlife". Following those led by Copernicus, Darwin, and Freud, this metaphysical shift represents nothing less than a fourth revolution. "Onlife" defines more and more of our daily activity - the way we shop, work, learn, care for our health, entertain ourselves, conduct our relationships; the way we interact with the worlds of law, finance, and politics; even the way we conduct war. In every department of life, ICTs have become

environmental forces which are creating and transforming our realities. How can we ensure that we shall reap their benefits? What are the implicit risks? Are our technologies going to enable and empower us, or constrain us? Floridi argues that we must expand our ecological and ethical approach to cover both natural and man-made realities, putting the 'e' in an environmentalism that can deal successfully with the new challenges posed by our digital technologies and information society.

NEW YORK TIMES BESTSELLER USA TODAY BESTSELLER Amazon, Apple, Facebook, and Google are the four most influential companies on the planet. Just about everyone thinks they know how they got there. Just about everyone is wrong. For all that's been written about the Four over the last two decades, no one has captured their power and staggering success as insightfully as Scott Galloway. Instead of buying the myths these companies broadcast, Galloway asks fundamental questions. How did the Four infiltrate our lives so completely that they're almost impossible to avoid (or boycott)? Why does the stock market forgive them for sins that would destroy other firms? And as they race to become the world's first trillion-dollar company, can anyone challenge them? In the same irreverent style that has made him one of the world's most celebrated business professors, Galloway deconstructs the strategies of the Four that lurk beneath their shiny veneers. He shows how they manipulate the fundamental emotional needs that have driven us since our ancestors lived in caves, at a speed and scope others can't match. And he reveals how you can apply the lessons of their ascent to your own business or career. Whether you want to compete with them, do business with them, or simply live in the world they dominate, you need to understand the Four.

The first book on Nike's iconic DUNK SB, a mid-rise basketball court staple that has in the last two decades become a colorful (and often irreverent) icon of skate and street wear. Created in 2002, the Nike Dunk was adopted from the court by skateboarders and sneakerheads to become an icon of the streets. An early catalyst to evolving sneaker culture as we know it today, the Nike Dunk has enjoyed a storied legacy of reinvention through numerous iterations and creative collaborations proving to be an integral part of a culture obsessed with sneakers. To celebrate this legacy, Nike SB: The Dunk Book is the first book to present the historical archive of one of the most important shoes ever created. Worn by an ever-growing list of elite riders at competitions all over the world, Nike Dunks are prized as much for their funky, one-of-a-kind designs as well as their high performance. Nike SB: The Dunk Book is filled with stunning images that tell the visual story of Nike SB's most iconic styles. Including Danny Supas, Staple Pigeon Dunks, De La Soul Highs, Paris Dunks, U.N.K.L.Es, and Supreme Dunk SBs, this volume flaunts the signature color-ways and craftsmanship that Nike SBs are known for. Through enlightening anecdotes by the likes of Futura and Paul Rodriguez, readers get intimate accounts of how their favorite sneakers came to be. Also featured are archival images of Nike SB's most recognizable skaters rocking the iconic sneakers, including Eric Koston, Richard Mulder, Grant Taylor, Omar Salazar, Reese Forbes, Brian Anderson, Theotis Beasley, and Daniel Shimizu.

Los Angeles magazine is a regional magazine of national stature. Our combination

of award-winning feature writing, investigative reporting, service journalism, and design covers the people, lifestyle, culture, entertainment, fashion, art and architecture, and news that define Southern California. Started in the spring of 1961, Los Angeles magazine has been addressing the needs and interests of our region for 48 years. The magazine continues to be the definitive resource for an affluent population that is intensely interested in a lifestyle that is uniquely Southern Californian.

Truly comprehensive in scope - and arranged in A-Z format for quick access - this eight-volume set is a one-source reference for anyone researching the historical and contemporary details of more than 170 major issues confronting American society. Entries cover the full range of hotly contested social issues - including economic, scientific, environmental, criminal, legal, security, health, and media topics. Each entry discusses the historical origins of the problem or debate; past means used to deal with the issue; the current controversy surrounding the issue from all perspectives; and the near-term and future implications for society. In addition, each entry includes a chronology, a bibliography, and a directory of Internet resources for further research as well as primary documents and statistical tables highlighting the debates.

A pair of technology experts describe how humans will have to keep pace with machines in order to become prosperous in the future and identify strategies and policies for business and individuals to use to combine digital processing power with human ingenuity.
