Every computer consultant, every managed service provider, every technical consulting company - every successful business - needs SOPs! If you want to be successful, you need to document your processes. Design a way for your company to have repeatable success. And as you fine-tune those processes and procedures, you become more successful, more efficient, and more profitable.

CD-ROM contains full text for all the procedures available in the manual. Files are provided both as fully formatted Word 6.0 (.doc) documents and as text-only documents (.txt).

program that promotes the acquisition of Italian language and culture through the integration of the “5 Cs” principles of the National Standards for Foreign Language Education. Percorsi is designed to provide beginning learners with a variety of tools to develop their communicative competence in the four major language skills—listening, speaking, reading, and writing—as they acquire familiarity with Italian culture. All of the features in Percorsi have been carefully thought out to support the two key aspects of the language acquisition process: language comprehension and language production. From the start, carefully structured communicative activities based on authentic materials and texts encourage students to use Italian in everyday situations. Generous use of authentic content also offers students a chance to develop reading skills while gaining cultural awareness and understanding of Italian communities and traditions throughout the world. In addition, each chapter explicitly promotes cultural exploration through illustrated presentations that are followed by activities facilitating comprehension and highlighting cultural comparisons. Students are encouraged to analyze and compare extremely varied aspects of Italian culture while making connections to their own experiences. MyItalianLab will be available for Fall 2011 courses.
