An instant classic, Modern Paladin (a holy warrior for todays world) combines the best of Bible commentary and church-leader discipleship. This work is as comprehensive and detailed as any program for leadership development could be. It begins with the discovery that the ancient city of Ephesus is the only church location to receive both an epistle from Paul and a letter in Revelations. This city and church are proven to be perfect representatives of the modern church and a line-by-line analysis of Ephesians uncovers over a hundred bullet-point lessons for modern church leaders. This in-depth commentary then evolves into an actual system, the modern paladin system, wherein a reader can analyze themselves, their small groups, and even whole churches, with an eye toward the biblical lessons of leadership. Absolutely required reading for any church leader that wants to improve or any scholar or student that wants to know more about Ephesians or what the Bible has to say about leadership. Dive in and discover how you can strengthen yourself, your small groups, and your church, striving through the Word of God to become a modern paladin!

The Interlinear Bible is really two Bibles in one. It combines the King James Version of 1611 with its first authorised successor, the Revised Version of 1885. The usual method for comparing two translations is to print the text in two parallel columns. In the Interlinear Bible, where the two texts are identical, only one line of type appears. Where there is any deviation, the RV is given as an upper line of smaller type, and the KJV as the lower line. This method immediately indicates where variations exist, yet it is possible to read either version with ease. • text of the KJV and the RV combined • cross-references from the RV • footnotes from the KJV and the RV • alphabetically arranged blank index pages • Bible Companion (a reading guide for each day of the year) • extra ruled paper for the reader's notes • 15 colour maps and a map index • list of variant readings preferred by the American Standard Version translation committee

Truth in Translation is a critical study of Biblical translation, assessing the accuracy of nine English versions of the New Testament in wide use today. Paul's letter to the Romans, says Nanos, is an example of Jewish correspondence, addressing believers in Jesus who are steeped in Jewish ways-whether of Jewish or gentile origin. Arguing against those who think Paul was an apostate from Judaism, Nanos maintains Paul's continuity with his Jewish heritage. Several key arguments here are: Those addressed in Paul's letter were still an integral part of the Roman synagogue communities. The "weak" are non- Christian Jews, while the "strong" included both Jewish and gentile converts to belief in Jesus. Paul as a practicing devout Jew insists on the rules of behavior for "the righteous gentiles." Christian subordination to authorities (Romans 13:1-7) is intended to enforce submission to leaders of the synagogues, not Roman government officials. Paul behaves in a way to confirm the very Jewish portrait of him in Acts: going first to the synagogues.
