To avoid grabbing every business owner he meets by the shoulders and shaking them, millionaire maker Dan S. Kennedy has joined with marketing strategist Kim Walsh-Phillips to help business owners, private practice professionals, and professional marketers start making dollars and cents of their social media marketing. Daring readers to stop accepting non-monetizable "likes" and "shares" for their investment of time, money, and energy, Kennedy and Walsh-Phillips urge readers to see their social platforms for what they are-another channel to reach customers and gain leads and sales for their efforts. Illustrated by case studies and examples, this No B.S. guide delivers practical strategies for applying the same direct- response marketing rules Kennedy has himself found effective in all other mediums. Covers: •How to stop being a wimp and make the switch from a passive content presence into an active conversion tool •How to become a lead magnet by setting up social media profiles that focus on the needs of ideal prospects (not the product or service) •Creating raving fans that create introductions to their networks •How to move cold social media traffic into customers •The role of paid media and how to leverage social media advertising to drive sales

FACT: NOTHING IS COSTLIER OR MORE DIFFICULT THAN GETTING A NEW CUSTOMER. Business owners agree. The referred customer is far superior to the one brought in by 'cold' advertising. Yet most business owners will invest more money to find new customers than getting referrals from current, happy customers. Millionaire maker Dan S. Kennedy and customer retention expert Shaun Buck dare you to stop chasing new customers and keep an iron cage around the ones you already have. Kennedy and Buck present a systematic approach to help you keep, cultivate, and multiply customers so that your entire business grows more valuable and sustainable, and you replace income uncertainty with reliable income through retention and referrals. Learn how to: • Apply the #1 best retention strategy (hint: it's exclusive) • Catch customers before they leave you • Grow each customer's value (and have more power in the marketplace) • Implement the three-step customer retention formula • Use other people's events to get more referrals • Create your own Customer Multiplier System • Calculate the math and cost behind customer retention Discover the referral-getting, sales-increasing, battle-tested tactics designed to help you build a thriving business for the long-term.
