Between 1925 and 1990, Brown & Bigelow released a yearly calendar for the Boy Scouts of America featuring a painting by illustrators Norman Rockwell and Joseph Cesatari. Rockwell only failed to complete a painting for two years: 1928 and 1930; Cesatari completed a painting for every year. The illustrations show scouts of different kinds - Cub Scouts, Scouts BSA, Venturing, Sea Scouts, and Air Scouts - engaging in mostly outdoor activities. The calendars were large - 22 by 44.5 inches ...

Norman Rockwell was born on February 3, 1894, in New York City, to Jarvis Waring Rockwell and Anne Mary "Nancy" Rockwell, born Hill. His earliest American ancestor was John Rockwell (1588-1662), from Somerset, England, who immigrated to colonial North America, probably in 1635, aboard the ship Hopewell and became one of the first settlers of Windsor, Connecticut.

Norman Rockwell's son, Tom, has put together the absolute finest collection of his father's bounteous body of work, illustrations that bespeak the golden glow of pre- and post-WWII Americana. Rockwell senior, who said he depicted life "as I would like it to be," chronicled iconic visions of American life: the Thanksgiving turkey, soda fountains, ice skating on the pond, and small-town boys playing baseball--not to mention the beginning of the civil rights movement. Now, the best-selling collection of Rockwell's most beloved illustrations, organized by decade, is available in a refreshed edition. With more than 150 images--oil paintings, watercolors, and rare black-and-white sketches--this is an uncommonly faithful Rockwell treasury. The original edition has sold nearly 200,000 copies.

This book examines what makes the United States an exceptional society, what impact it has had abroad, and why these issues have mattered to Americans. With historical and comparative evidence, Frank J. Lechner describes the distinctive path of American institutions and tracks changes in the country's national identity in order to assess claims about America's 'exceptional' qualities. The book analyzes several focal points of exceptionalist thinking about America, including the importance of US Constitution and the American sense of mission, and explores several aspects of America's distinctive global impact; for example, in economics and film. In addition to discussing the distinctive global impact of the US, this first volume delves into the economy, government, media, and the military and foreign policy.

Celebrates the way of life of the people who began forming communities in America in 1774 and who numbered more than 4,000 members in the late 1820s.

Norman Rockwell spent seven decades capturing the essence of the American spirit on canvas. His paintings, which graced more than three hundred covers of The Saturday Evening Post, created the symbols of the nation during World War II, depicted beautiful women who still retained their girl-next-door qualities, showed boys and girls embroiled in the delights and disappointments of childhood and young lovers sipping ice cream sodas, and celebrated the joys of family gatherings. But most of all, Rockwell's pictures portrayed the strength and compassion of small-town America, earning him a unique position as both a storyteller and a chronicler of American history. Adults and children alike recognize Norman Rockwell's name and paintings as the embodiment of all that is positive in the American character. Norman Rockwell, who painted from 1912 to 1976, illustrated not only magazine covers, but also children's books, boy scout calendars, and advertisements for corporations and the U.S. government. He also portrayed all of the major presidential candidates from 1952 to 1972, as well as statesmen, actors, and popular heroes of the day. Norman Rockwell is a Rockwell retrospective, featuring work from almost every year of his artistic career. From an early series depicting the awkwardness and exhilaration of young Boy Scouts to his later series illustrating the Four Freedoms--Freedom of Speech, Freedom of Worship, Freedom from Want, and Freedom from Fear--for which America was fighting in World War II, to his poignant and authentic images of Americans at play, at work, and in their homes, this collection offers a truly spectacular and diverse array of full-color reproductions of Rockwell's work. Norman Rockwell allows the Rockwell fan to trace the evolution of the artist and his craft, year by year, through his paintings, his sketches, and photographs of him at work. This volume also contains a discussion of Rockwell's life, "A Great American Success Story," and a section describing the precise and deliberate way he created his paintings. In addition, Norman Rockwell features a preface by Maureen Hart Hennessey, curator of The Norman Rockwell Museum at Stockbridge. This collection of Rockwell's work, full of his most popular paintings--as well as much of his lesser-known work--is sure to delight people of all ages.

Offers insight into the work and methods of the celebrated American illustrator, describing with lavish reproductions of numerous works his efforts at the sides of skilled photographers who combined models, props, and locations that served as the basis of Rockwell's iconic images.

"The long-awaited biography of the defining illustrator of the twentieth century by a celebrated art critic"--

Young Scotty Ingram, who is posing for Norman Rockwell's Four Seasons paintings, keeps his eyes open when the artist has difficulties in finding just the right dog for a model, in this fictionalized account of an actual relationship.
