IP Office - Issue 02b (05 March 2014)

This introduction to Java programming features a business focus. It discusses what it means to be object oriented, how to structure classes, and how to write methods using Java's structured programming elements. After outlining the elements of a complete Java program, the book moves on to advanced topics such as writing event-driven GUI programs, preparing applets for the Web, one- and two-dimensional arrays, animation, and more. Files from the book will be available on the Web.

Online Library Norstar T7208 User Guide

Java Programming: A Comprehensive Introduction is designed for an introductory programming course using Java. This text takes a logical approach to the presentation of core topics, moving step-by-step from the basics to more advanced material, with objects being introduced at the appropriate time. The book is divided into three parts: Part One covers the elements of the Java language and the fundamentals of programming. An introduction to object-oriented design is also included. Part Two introduces GUI (Graphical User Interface) programming using Swing. Part Three explores key aspects of Java's API (Application Programming Interface) library, including the Collections Framework and the concurrency API. Herb Schildt has written many successful programming books in Java, C++, C, and C#. His books have sold more than three million copies. Dale Skrien is a professor at Colby College with degrees from the University of Illinois-Champaign, the University of Washington, and St. Olaf College. He's also authored two books and is very active in SIGCSE.

Fundamentals of Derivatives Markets is a succinct yet comprehensive adaptation of the author's successful text, Derivatives Markets. Streamlined for a broad range of undergraduate students, the approachable writing style and accessible balance of theory and applications introduces essential derivatives principles. By exploring various methods for valuing derivatives and by discussing risk management strategies in real-world context,

Fundamentals of Derivatives Markets develops students a financial literacy for today's corporate environment."

For more than 30 years, messenger Elijah Muhammad has been teaching the so-called Negroes of America on the proper foods to eat to improve their mental power, physical appearance, for prevention of illness, curing of ailments and prolonging life. Given the humble, economic conditions of the blacks in America, an inexpensive, yet highly nutritional diet was given to them by Elijah Muhammad. Before the health craze that has swept the country, Elijah Muhammad and the Nation of Islam were head of the curve as far back as the early 30's. This is the second of two books written with this simple, yet revolutionary way of eating.

Reflecting the work of Spurgeon as a young man, these graphic word pictures and closely reasoned applications are warm, expressive, dynamic models for communicating God's Word.
