Reading and Note Taking Study Guide - FCPS

A good note taking hint. Be sure notes are readable A note-taking system that has you make 2 inch column on left for clues and 3 inches in the middle for lecture notes. 2-3-3-2

Developed to meet the needs of a survey course covering from prehistory-1765 to the present.

The Student Study Guide provides a study aid for students and contains multiple choice questions, review questions, image labeling activities, fill-in-the-blanks, critical-thinking questions, key terms, and a note-taking guide.

THE STUDY SMART SERIES, designed for students from junior high school through lifelong learning programs, teaches skills for research and note-taking, provides exercises to improve grammar, and reveals secrets for putting these skills together in great essays. Test taking is a skill apart from learning course material, a skill every student must acquire in order to survive. Test-Taking Strategies is the book for anyone who has ever dreaded an exam. Strategies for taking every kind of test are dealt with—objective tests (multiple choice, true/false, matching), essay tests, and oral exams. The authors also offer help for handling anxiety, explaining relaxation and desensitization techniques that help students control nervousness and keep it from detracting from performance. There are tips for managing time during the test, knowing when to guess, and for pulling answers out of your memory even when the question drew a blank at first glance. Essay tests and oral exams are particularly gruesome for most students, and until now there has been very little advice for handling such tests. Test-Taking Strategies includes plenty of advice for developing ideas while under pressure.

Reinforce your understanding of radiation therapy and prepare for the Registry exam! Mosby's Radiation Therapy Study Guide and Exam Review is both a study companion for Principles and Practice of Radiation Therapy, by Charles Washington and Dennis Leaver, and a superior review for the certification exam offered by the American Registry for Radiologic Technology (ARRT). An easy-to-read format simplifies study by presenting information in concise bullets and tables. Over 1,000 review questions are included. Written by radiation therapy expert Leia Levy, with contributions by other radiation therapy educators and clinicians, this study tool provides everything you need to prepare for the ARRT Radiation Therapy Certification Exam. This title includes additional digital media when purchased in print format. For this digital book edition, media content is not included. Over 1000 multiple-choice questions in Registry format are provided in the text, allowing you to both study and simulate the actual exam experience. Focus questions and key information in tables make it easy to find and remember information for the exam. Review exercises reinforce learning with a variety of question formats to fit different learning styles. Questions are organized by ARRT content categories and are available in study mode with immediate feedback after each question, or in exam mode, which simulates the test-taking experience in a timed environment with ARRT exam-style questions.

This handy study tool helps students get the most out of their course by reinforcing key concepts and terms.

New edition of the Hockenburys' text, which draws on their extensive teaching and writing experiences to speak directly to students who are new to psychology.

For every chapter, the Study Guide will include a "Preview" and "At A Glance" sections (both provide an overview of and objectives for the chapter). Each major topic includes a progress test, comprised of multiple-choice, matching, and/or true/false questions. The Guide also contains "Graphic Organizers," which encourage students to complete graphs, charts, and flow diagrams that ultimately provide a visual synopsis of text material. End-of-chapter material includes "Something To Think About" sections, which contain thought provoking questions designed to encourage critical thinking and application of the material.
