O deus ouviu Midas e sentiu pena dele. Ele disse ao rei para ir ao rio Pactolo e lavar suas mãos. Foi exatamente o que Midas fez: correu para o rio e ficou atônito ao ver o ouro saindo de suas mãos. Os antigos gregos diziam que encontraram ouro às margens do rio Pactolo.

When you're in your late twenties and nothing in your life seems to be falling into place, knitting is an awfully seductive way to spend your free time. After all, as long as you're following the instructions, you can knit row after row with the knowledge that the pattern will emerge and you'll end up with just what you wanted. Life, on the other hand, doesn't come with a stitch counter, so Kathleen, Sari, and Lucy, the heroines of *KNITTING UNDER THE INFLUENCE*, just have to figure things out as they go along. Their weekly Sunday knitting circle is the only thing holding them together as

Kathleen is cut off financially by her family and forced to enter 'the real world' for the very first time at the age of twenty-seven, Sari finds herself falling for the man who made her life a living hell in high school but who now desperately needs her help, and Lucy finds herself torn between emotion and reason when her lab and her boyfriend are assailed by an animal-rights group. At their club meetings, they discuss the really important questions: how bad is it, really, to marry for money if you like the guy a lot anyway? Can you ever forgive someone for something truly atrocious that they've done? Is it better to be unhappily coupled than happily alone? And the little ones: Can you wear a bra with a

hand-knit tube top? Is it ever acceptable to knit something for a boyfriend? And why do your stitches become lopsided after your second martini? In Claire LaZebnik's hilarious and sometimes heartbreaking novel, Sari, Lucy, and Kathleen's lives intersect, overlap, unravel, and come back together-the result is an utterly satisfying read.

Rachel Resnick hits her forties single, broke, depressed, and childless. Looking back over years of failed relationships, she identifies a lifelong addiction to love-an addiction to the unfulfilled fantasy of romantic bliss, marriage, and family, and to a string of sexual relationships that only carry her farther from that

dream. As she peels back one raw layer after another, she must eventually confront the painful experiences of her childhood-and the difficult work of recovery that lies ahead. A groundbreaking, compulsively readable memoir, Love Junkie charts Resnick's path from destructive love to intimacy, from despair to hope, and cracks open one of our more elusive and pervasive modern-day addictions.

"It's hard to align with money if you think that it is evil and nasty. But once you come to an understanding that money is neutral, it's easy to see that having money does not necessarily deprive somebody

Noncircular Gears: Design and Generation represents the extension of the modern theory of gearing applied to the design and manufacture of the main types of noncircular gears: conventional and modified elliptical gears, eccentric gears, oval gears, gears with lobes, and twisted gears. This book is enhanced by updated theoretical description of the methods of generation of noncircular gears by enveloping

methods similar to those applied to the generation of circular gears. Noncircular Gears: Design and Generation also offers new developments directed to extend the application of noncircular gears for output speed variation and generation of functions. Numerous numerical examples show the application of the developed theory. This book aims to extend the application of noncircular gear drives in mechanisms and industry.

Fishing for a Solution provides a detailed, policy-based account of the development of Canada's fisheries relations with the European Union. It covers over 35 years of this contentious international relationship, from the extension of Canada's fisheries jurisdiction to 200 miles in 1977 and the creation of the Northwest Atlantic Fisheries Organization (NAFO) two years later, to the development of a proposed new NAFO Convention in 2007, which awaits formal approval. Based on the experience of participants from inside the deliberations and negotiations, the book explores the impact of Canada's internal

politics on international fisheries negotiations. For anyone interested in the workings of Canadian foreign policy, resource policy or in the complexities of managing international relations, it offers a unique account of the development of Canada-EU fisheries relations, blending the academic perspective of a long-time student of those relations with the insights of two former senior public servants who led the international affairs directorate of Canada's Department of Fisheries and Oceans.
