Stephen P. Robbins

A useful introduction to, and a practical academic text on, the process of assessing how to structure an organisation. Considers structure through the components of complexity (the degree of specialisation and spans of control), formalisation (the degree of standardisation through selection, roles, policies and training) and centralisation.

There are several theories which explain the organization and its structure (EXHIBIT 1). Classical organization theory includes the scientific management approach, Weber's bureaucratic approach, and administrative theory.. The scientific management approach is based on the concept of planning of work to achieve efficiency, standardization, specialization and simplification.
