American Film Institute Catalog Contains filmographic information on the history of American cinema from 1893 to 1975. Also includes full or short records for films from 1976 to present, and an index of films produced in America or by American production companies.

Surveys the disciplinary approaches in film studies, examines the concepts and methods of film analysis, and discusses the issues and debates in the examination of film.

This is a guide to the study of film, covering the significant theories, debates and approaches to the subject. Contributors provide an overview of the main disciplinary approaches, explaining the concepts and methods involved in film analysis.

This reference work provides a single-volume source of original scholarship on the intersection of film and media studies. Some essays survey particular issues, such as the changing concept of 'realism' in film. Others look at current media practices with special attention to new media.

This book provides a multifaceted single-volume account of Japanese cinema. It addresses productive debates about what Japanese cinema is, where Japanese cinema is, as well as what and where Japanese cinema studies is, at the so-called period of crisis of national boundary under globalization and the so-called period of crisis of cinema under digitalization.

Written by experts in the field, this dictionary covers all aspects of film studies, including terms, concepts, debates, and movements in film theory and criticism, national, international and transnational cinemas, film history, film movements and genres, film industry organizations and practices, and key technical terms and concepts in 500 detailed entries. Most entries also feature recommendations for further reading and a large number also have web links. The web links are listed and regularly updated on a companion website that complements the printed book. The dictionary is international in its approach, covering national cinemas, genres, and film movements from around the world such as the Nouvelle Vague, Latin American cinema, the L'exploitation film, Bollywood, Yiddish cinema, the spaghetti western, and World cinema. The most up-to-date dictionary of its kind available, this is a must-have for all students of film studies and ancillary subjects, as well as an informative read for cinephiles and for anyone with an interest in films and film criticism.

The Oxford Handbook of Film Music Studies gathers two dozen original essays that chart the history and current state of interdisciplinary scholarship on music in audiovisual media, focusing on four areas: history, genre and medium, analysis and criticism, and interpretation.

This is a comprehensive textbook for students of cinema. It provides a guide to the main concepts used to analyse the film industry and film texts, and also introduces some of the world's key national cinemas.

This collection of forty new essays, written by the leading scholars in adaptation studies and distinguished contributors from outside the field, is the most comprehensive volume on adaptation ever published. Written to appeal alike to specialists in adaptation, scholars in allied fields, and general readers, it harkens back to the foundations of adaptation studies a century and more ago, surveys its ferment of activity over the past twenty years, and looks forward to the future. It considers the very different problems in adapting the classics, from the Bible to Frankenstein to Philip Roth, and the commons, from online mashups and remixes to adult movies. It surveys a dizzying range of adaptations around the world, from Latin American telenovelas to Czech cinema, from Hong Kong comics to Classics Illustrated, from Bollywood to zombies, and explores the ways media as different as radio, opera, popular song, and videogames have handled adaptation. Going still further, it examines the relations between adaptation and such intertextual practices as translation, illustration, prequels, sequels, remakes, intermediality, and transmediality. The volume's contributors consider the similarities and differences between adaptation and history, adaptation and performance, adaptation and revision, and textual and biological adaptation, casting an appreciative but critical eye on the theory and practice of adaptation scholars--and, occasionally, each other. The Oxford Handbook of Adaptation Studies offers specific suggestions for how to read, teach, create, and write about adaptations in order to prepare for a world

in which adaptation, already ubiquitous, is likely to become ever more important.

Featuring nearly three thousand film stills, production shots, and other illustrations, an authoritative history of the cinema traces the development of the medium, its filmmakers and stars, and the evolution of national cinemas around the world

Media forms and genres are proliferating as never before, from movies, computer games and iPods to video games and wireless phones. This essay collection by recognized scholars, practitioners and non-academic writers opens discussion in exciting new directions.
