The Book of Revelation holds a special fascination for both scholars and the general public. The book has generated widely differing interpretations, yet Revelation has surprisingly not been the focus of many single-volume reference works. The Oxford Handbook of the Book of Revelation fills a need in the study of this controversial book. Thirty essays by leading scholars from around the world orient readers to the major currents in the study of Revelation. Divided into five sections-Literary Features, Social Setting, Theology and Ethics, History of Reception and Influence, and Currents in Interpretation-the essays identify the major lines of interpretation that have shaped discussion of these topics, and then work through the aspects of those topics that are most significant and hold greatest promise for future research.

A captivating history of one of the world's most iconic and mysterious flowers Bewitched by a lotus which flowered from three-thousandyear- old seeds in his English garden, Mark Griffiths set out to track the origins and significance of this sublime plant in this beautifully-illustrated book. The Lotus Quest takes Griffiths from the headquarters of the Linnaean Society in London to a mountain top in northern Japan. As he travels in search of this ancient flower, Griffiths looks at the lotus's significance in ancient Egypt and India, the plant's medicinal uses and the inspiration it has provided to Western artists. As he tracks the plant, its story unveils a stunning vision of Japan's feudal era with visits to shrines, ruins, gardens and wild landscapes as well as meetings with priests and archaeologists, philosophers and anthropologists, gardeners and botanists, poets and artists. He even dines on the lotus in a Tokyo cafe. By the end of Griffiths' journey, when he reaches the hauntingly beautiful Japanese temple of Chuson-ji, readers will finally understand why the lotus has obsessed people throughout the ages.

Documents the last fifty years of history as a period of increasing interconnection and fragmentation through such political events as the Cold War, the Chinese revolution, Vietnam, the fall of the Soviet Union, and digital development.

Dynamic Thinking will teach you simple truths that are the basis of all success and will provide effective techniques for putting them to work in your life. You will learn how to harness the power of your conscious and subconscious minds and use that power to accomplish whatever you want. Melvin Powers ' classic book Dynamic Thinking is your blueprint to dynamic living. It provides you with an opportunity to build the life you ' ve wanted but never dared to believe you could have.—Wilshire Book Company

This fascinating and practical book explores persuasive techniques in the English language, and is the ideal introduction for students and others with a professional interest in persuasion. Using a wide range of lively and accessible illustrative material, Robert Cockcroft and Susan Cockcroft unpick the complexities of persuasive language - both written and spoken - and enable readers to develop and enhance their rhetorical skills. Now thoroughly revised and expanded, the second edition of this successful text includes: - Developed application of cognitive linguistic theory, which sheds new light on the emotional and logical powers of persuasion - Extended and updated examples of rhetoric in action - Clear pointers for further study to allow readers to continue their exploration into rhetorical theory and practice - A new final chapter which invites readers to practice their skills using updated versions of traditional rhetorical exercises
