The CBSE has made certain changes in the assessment structure from the session 2019-20 onwards. In the new scheme of examination, CCE and term system has been

Bookmark File PDF Paper Chromatography Viva

replaced with the Internal Assessment & Single Annual Exam by CBSE itself. Single exam conducted by CBSE will carry 80 marks whereas 20 marks are left to the schools for internal assessment. CBSE has issued detailed guidelines on how the internal marks will be divided among different activities. From 2019 onwards, there will be internal choices in board examinations with increased internal options in the question paper. Considering this change, now a student has to prepare accordingly for board examinations. The new assessment format brought with it excitement

Questions that it should be possible for the students to understand the various topics easily.

This work details the practical use of size exclusion chromatography (SEC) in characterizing the molecular weight distribution of important polymeric materials. It addresses problems encountered in the SEC of specific substances, including copolymers, polyamides, polyvinyl alcohol and acetate, lignin derivatives, proteins and starch.

The broad goal of teaching

Bookmark File PDF Paper Chromatography Viva

biochemistry to undergraduate students is to make them understand the scientific basis of the life processes at the molecular level and to orient them towards the application of the knowledge acquired in solving clinical problems. It covers entire syllabus of biochemistry as per guidelines of Medical Council of India with more emphasis on clinical application of the subject. It attempts at exposing the students to the ideal answers to questions often asked in examination. The questions not only test the knowledge but also incorporate the
