Written specifically to address the Common Core State Standards, enVisionMATH Common Core is based on critical foundational research and proven classroom results. Since enVisionMATH Common Core was built from the ground up to meet the Common Core State Standards, mathematical practices are deeply rooted in the curriculum. These practices promote student success in mathematics. Teach all of the Standards for Mathematical Content within the structure of a program powerful in concept development and grounded on big ideas of mathematics and related essential understandings. This new program develops conceptual understanding through daily Problem-Based Interactive Learning and step-by-step Visual Learning. How do I differentiate instruction? enVisionMATH Common Core shows you. It offers you

(is that even possible?) And then there are the negative numbers, the imaginary numbers, the irrational numbers like π which never end. It literally never ends. The world of numbers is indeed strange and beautiful. Among its inhabitants are some really notable characters - π , e , the square root of minus two and the famous golden ratio to name just a few. Prime numbers occupy a special status. Zero is very odd indeed. And even some apparently common-or-garden integers such as 37 have special properties.

Adventures In Mathematics takes a tour of this mind-blowing but beautiful world of numbers and the mathematical rules that connect them. Find out mathematicians' favourite numbers, and the ones they are afraid of (spoiler: it isn't 13). Discover the incredible connection between numbers and the rules of nature. And learn some amazing mathematical tricks that will keep

Sourcebook contains End-of-the-Unit Assessment Tasks for each Curriculum Unit along with suggestions of what the teacher should look for when evaluating student work.* Contains both English and Spanish blackline masters.

Envision a math program that engages your students as it strengthens their understanding of math. enVisionMATH uses problem based interactive learning and visual learning to deepen conceptual understanding. It incorporates bar diagram visual tools to help students be better problem solvers, and it provides data-driven differentiated instruction to ensure success for every student. The best part, however, is that this success is proven by independent, scientific research. Envision more, enVisionMATH!
