For courses in concept-based nursing. #1 curriculum choice for concept-based schools of nursing Nursing: A Concept-Based Approach to Learning provides all of the core content and materials needed to deliver an effective concept-based program that develops practice-ready nurses. This three-volume series is the only concepts curriculum developed from the ground up as a cohesive, comprehensive learning system. An intentional instructional design and learning pattern fosters connections between concepts and a deep level of comprehension that can be applied broadly. Volume II focuses on 30 crucial psychosocial, reproductive, nursing, and healthcare concepts, and then turns to the nurse's broader roles in areas such as accountability, advocacy, and safety. The 3rd edition is a full-scale, cover-to-cover revision that brings the text in line with new evidence-based practice, care, and safety guidelines. Also available with MyLab Nursing MyLab(TM) is the teaching and learning platform that empowers you to reach every student. By combining trusted author content with digital tools and a flexible platform,

MyLab personalizes the learning experience and improves results for each student. For the two-semester A&P lab course. Practical, active learning exercises with a visual approach Visual Anatomy & Physiology Lab Manual (Stephen Sarikas) brings all of the strengths of the revolutionary Visual Anatomy & Physiology textbook (Martini/Ober/Nath/Bartholomew/Petti) to the lab. The 2nd Edition builds upon the visual approach and modular organization with new features to better prepare you for lab, maximize your learning, and reinforce important concepts. With an emphasis on clear, easy to follow figures (from the Martini Visual A&P text), frequent practice, and helping you make connections, the manual provides you with the powerful tools you need to excel. The two-page lab activity modules seamlessly integrate text and visuals to guide you through lab activities—with no page flipping. Lab practice consists of hands-on activities and assignable content in Mastering A&P, including new pre-lab quizzes, Review Sheets, and virtual lab study tools. Also available with Mastering A&P Mastering A&P is an online homework, tutorial, and assessment program designed to engage students and improve results. Instructors ensure that students arrive ready to learn in lab by assigning content before class, and encourage critical thinking and retention with in-class resources such as Learning Catalytics[™]. Students can further master concepts after class through assignments that provide hints and answer-specific feedback. With a wide range of activities available, students can actively learn, understand, and retain even the most difficult concepts. The #1 best-selling book for the human anatomy course, Human Anatomy, Seventh Edition is widely regarded as the most readable and visually accessible book on the market. The new edition builds on the book's hallmark strengths--art that teaches better, a reader-friendly narrative, and easy-to-use media and assessment tools--and improves on them with new and updated Focus Figures and new in-text media references. This edition also features vivid new clinical photos that reinforce real-world applications, and new cadaver photos and micrographs that appear side-by-side with art--all to increase students' ability to more accurately visualize key anatomical structures.

Active learning exercises help engage the kinesthetic learner with labeling, drawing, and build-your-own-summary-table exercises that students can complete as they read the text. Available with the textbook at no additional cost as downloadable PDF worksheets in the Study Area of MasteringA&P.
