Writing an amazing college admission essay is easier than you think! So you're a high school senior given the task of writing a 650-word personal statement for your college application. Do you tell the story of your life, or a story from your life? Do you choose a single moment? If so, which one? The options seem endless. Lucky for you, they're not. College counselor Ethan Sawyer (aka The College Essay Guy) will show you that there are only four (really, four!) types of college admission essays. And all you have to do to figure out which type is best for you is answer two simple questions: 1. Have you experienced significant challenges in your life? 2. Do you know what you want to be or do in the future? With these questions providing the building blocks for your essay, Sawyer guides you through the rest of the process, from choosing a structure to revising your essay, and answers the big questions that have probably been keeping you up at night: How do I brag in a way that doesn't sound like bragging? and How do I make my essay, like, deep? Packed with tips, tricks, exercises, and sample essays from real students who got into their dream schools, College Essay Essentials is the only college essay guide to make this complicated process logical, simple, and (dare we say it?) a little bit fun.

For undergraduates following any course of study, it is essential to develop the ability to write effectively. Yet the processes by which students become more capable and ready to meet the challenges of writing for employers, the wider public, and their own purposes remain largely invisible. Developing Writers in Higher Education shows how learning to write for various purposes in multiple disciplines leads college students to new levels of competence. This volume draws on an in-depth study of the writing and experiences of 169 University of Michigan undergraduates, using statistical analysis of 322 surveys, qualitative analysis of 131 interviews, use of corpus linguistics on 94 electronic portfolios and 2,406 pieces of student writing, and case studies of individual students to trace the multiple paths taken by student writers. Topics include student writers ' interaction with feedback; perceptions of genre; the role of disciplinary writing; generality and certainty in student writing; students ' concepts of voice and style; students ' understanding of multimodal and digital writing; high school ' s influence on college writers; and writing development after college. The digital edition offers samples of student writing, electronic portfolios produced by student writers, transcripts of interviews with students, and explanations of some of the analysis conducted by the contributors. This is an important book for researchers and graduate students in multiple fields. Those in writing studies get an overview of other longitudinal studies as well as key questions currently circulating. For linguists, it demonstrates how corpus linguistics can inform writing studies. Scholars in higher education will gain a new perspective on college student development. The book also adds to current understandings of sociocultural theories of literacy and offers prospective teachers insights into how students learn to write. Finally, for high school teachers, this volume will answer questions about college writing.

This is not a textbook. This booklet contains very little writing theory or explanation of rhetorical concepts. Instead, it is a step-by-step method for writing a five-paragraph paper from the assignment through the final proofreading. Using sentence formulas, paragraph templates, and detailed checklists, the writer will be able to plug in subject matter for their assigned papers and build a finished product that is organized correctly. For writers who need to create a five-paragraph (2-3 page) paper, this booklet will guide them through the process of getting the words down on the page. It does not matter if that paper is meant to be informative or persuasive. Regardless of tone or style, this booklet can guide the writer through to a finished paper.

In this classroom-tested approach to writing, Brock Dethier teaches readers how to analyze and write twenty-one genres that students are likely to encounter in college and beyond. This practical, student-friendly, task-oriented text confidently guides writers through step-by-step processes, reducing the anxiety commonly associated with writing tasks. In the first section, Dethier efficiently presents each genre, providing models; a description of the genres' purpose, context, and discourse; and suggestions for writing activities or "moves" that writers can use to get words on the page and accomplish their writing tasks. The second section explains these moves, over two hundred of them, in chapters ranging from "Solve Your Process Problems" and "Discover" to "Revise" and "Present." Applicable to any writing task or genre, these moves help students overcome writing blocks and develop a piece of writing from the first glimmers of an idea to its presentation. This approach to managing the complexity and challenge of writing in college strives to be useful, flexible, eclectic, and brief—a valuable resource for students learning to negotiate unfamiliar writing situations.

The activities in this book will take the student through the step-by-step process of writing a personal essay - from choosing a topic to presenting a finished essay. A Teacher's Guide is included for most lessons and a Student Tip Sheet and a Sample Topics List will help make writing an essay a breeze.
