Personal Finance takes a hands-on approach to building a financial plan. The text's seven parts each cover one section of a financial plan; Chapter 21 is the capstone. A running example throughout the book and a variety of end-of-chapter cases reinforce the practical aspects of planning.

Personal Finance's highly interactive approach, engaging style, and lively page design captures students' attention as they learn how to incorporate each important concept into their own financial planning. Students will leave the course with a ready-to-implement financial plan and the tools and knowledge they need to effectively manage their own personal finances.

This text is not about filling in income tax forms-it provides students with strategies for building a successful personal financial plan. This hands-on approach equips students with the expertise they need to make informed financial decisions. The most recent coverage of rules and regulations that govern and affect financial planning have been integrated throughout this new edition, as well as coverage of recent events such as the financial crisis.
