The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

This collection, written by legal scholars from around the world, offers insights into a variety of topics from children’s rights to criminal law, jurisprudence, medical ethics and more. Its breadth reflects the fact that these are all elements of what can broadly be called ‘law and society’, that enterprise that is interested in law’s place or influence in different aspects of real lives and understands law to be simultaneously symbol, philosophy and action. It also testament to the broad range of vision of Professor Michael Freeman, in whose honour the volume was conceived. The contributions are divided into categories which reflect his distinguished career and publications, over 85 books and countless articles, including pioneering work on children’s rights, domestic violence, religious law, jurisprudence, law and culture, family law and medicine, ethics and the law, as well as his enduring commitment to interdisciplinarity.
