Pete Cullers Boats The Complete Pete Culler worked in a shop, not an office. He built boats, as well as designed them. His "career" as a boat designer was relatively short-the bulk of his design work was done in the 1960s and 1970s. Every design he ever put on paper-more than 100 in all-is included in this book.

A good and complete listing of Captain Pete's designs. I am glad that the effort was expended to write the book and it is well written and contains a good number of photographs of the boats.The disappointing aspect is the very small size of the plans in the book,not many are more than three inches long.I imagine this was done so they were unusable for building and while this aim has been ...

R.D. "Pete" Culler is one of the best-known, best-respected designers and builders of traditional wooden boats. Renowned for dozens of small boat and large schooner designs and for his encyclopedic knowledge of traditional building methods and techniques, he wrote three books and numerous articles that provided a cornerstone of the wooden boat revival and inspired a generation of enthusiasts.

by Burke, John. ~ US \$26.54. Culler's design philosophy had three pillars: simplicity, economy, and ease of use. He believed designs based on the working craft of the past could fulfill the needs of today's sailor-with style-and his adaptations conquered the inherent cumbersomeness of heritage lines. Burke presents every design Culler put on paper-outboard workboats, a double-paddle canoe, a scow schooner, fast launches, a 26-foot tugboat, a Tancook whaler, sampans, sharpies, schooners ...

Arthur Edmunds is one of the country's top naval architects and his knowledge of the boat building industry has never been more apparent than in this book. Art has written this book so the reader, unfamiliar with the construction process, will understand every aspect of the process. But this is not a beginner's-only boat building book. Advanced craftsmen and top professionals have equally as much to learn from Art's years of experience. Art takes the reader from the first step of Building a Fiberglass Boat to the last step, in a manner that will certainly inspire all who ever pondered the notion. He expertly explains why a competent craftsman would want to undertake the seemingly overwhelming task of building his own boat. Art has described the two most popular sizes and styles of boats as examples for the project; a twenty-five-foot open boat and a thirty-three-foot cruising boat. Sail is also explained. By referring to these example boats, the reader can envision a boat of any size, limited only by the imagination. Everyone can learn from this book. If you have a boat just waiting to be built, you will now have the knowledge. If you never plan to build a boat, you will understand the entire process, making the Buying Experience far less confusing. There are no Trade Secrets, only knowledge not yet learned. Illustrated.

When Coyote and its skipper, Mike Plant, went missing mid-Atlantic in November 1992, the sailing world held its breath. Now, twenty years later, the story around the mystery, tragedy, and enigma is told at last "[Plant] is as close as yachting gets to a James Dean character, going his own way, in his own time, but always with an eye to the sea." --Barbara Lloyd, New York Times [Coyote is one of the best sailing books of the year.] --Sailing Magazine Mike Plant came to ocean racing late; as an American in a sport dominated by European sailors he was an underdog. And yet he won his class in the 1986-87 Around Alone 24,000-mile race, beating competitors with more experience, among them Hal Roth. Plant led an adrenaline-fueled life, full of seemingly suicidal adventures and yet his charismatic personality attracted hundreds of friends. Told in the style of Into the Wild, Coyote Lost at Sea transcends the sailing story and explores the intimate details of Plant's intense personality, upbringing, and experiences that created the fiercely original character of Mike Plant. It explores the events and circumstances leading to Plant's phenomenal success as a singlehanded ocean-racer, as well as the factors contributing to the failure of his high-tech and controversial boat, Coyote.

These newest to the world of archery - target [paintball trackless crossbows] and [trackless crossbows], you hand / home shop / shop - make for yourself or hand-made by your favorite cabinet shop / wood-working handy-man / archery bow maker, for a life-time collectable (s) ! They are the first on planet earth, that we know of through our archery shop researches and the first archery target bows that launch - [Target Arrows, Fishing Arrows, Game Hunting Arrows], with an adapted [Whisker Biscuit] or "Archery Fishing" arrows rest and others, also, [Paintballs] - (freelance launch) & the silver spheres (1 - 5 shot pieces at a time) and air-soft bb's, reg. bb's just like arrows, up to approx. 100 yards distanced targets and for small game hunting ! These new archery target bows shoot (5) or more different ammo.s, (including [Paintballs 40 - 43 - 50 - 68 calibers), 1 - 4 shot pieces at a time, 180 - 350+ fps. ! So, the ammo.s choice is yours or your parental guides, for safety purposes ! These new [Trackless Crossbows] in this new book are [all] basically inter-changeable with each other and [all] their bow parts are very easy to replace, too. Also, the new bows make a [One Of A Kind] gift, already hand-made bow(s) or the book and they're a quite unique hand-me-down, too! These are alot of fun in our version at Slingbows Archery, a new competitive archery target scoring [Paint-ball] game, [Paintball Archery] and on the "Paintball Field Courses, Too", playing in competition against CO2 paintball guns, for a new form of sports! Also, by these being the first, [Originals], and [One Of A Kind], then the fi rst made will be the most valued life-time collectables, as time goes past! To inspire better relationships, like Father and Son working together, to make something that will last along time, and continue the great memories! This book is also, for the sportswomen and sportsmen of the archery sports and in great expectations that these innovated trackless crossbows will help create a new sport in Amdway and other great countries! These are a great training and course leading to other archery sports, and are, a new archery sport and fun! I really want to include a note of inspiration, because the [Low Country] of Georgia, with its wonderful natural resources, lead myself in many ways to invent, including all of our proto-typing, researches and our developments, in creating [The Eagle I & III] and [The V-king I & III] - Totally Trackless Crossbows at Slingbows Archery. Also, this includes the cities of Midway, Hinesville, Richmond Hill and our great historical city of Savannah, GA.

This straightforward guide is designed to take the novice step-by-step through the stages of designing both power and sailing boats, explaining the reasons behind the procedures and using typical lines plans and working drawings to help understanding. Since it was first published, How to Design a Boat has proved itself to be a bestseller. 'A brilliant little book.' Workboat World 'Thoroughly recommended.' Motor Boat & Yachting
