Environmental Science Class XII

An anthology designed for the enjoyment and instruction of students from junior-secondary school onwards. The poems focus on aspects central to African life and culture: lover, identity, death, village life, separation, power and

freedom. Guidance for teachers is included.

For the last three decades, Uganda has been one of the fastest growing economies in Africa. Globally praised as an African success story and heavily backed by international financial institutions, development agencies and bilateral donors, the country has become an exemplar of economic and political reform for those who espouse a neoliberal model of development. The neoliberal policies and the resulting restructuring of the country have been accompanied by narratives of progress, prosperity, and modernisation and justified in the name of development. But this self-celebratory narrative, which is critiqued by many in Uganda, masks the disruptive social impact of these reforms and silences the complex and persistent crises resulting from neoliberal transformation. Bringing together a range of leading scholars on the country, this collection represents a timely contribution to the debate around the New Uganda, one which confronts the often sanitised and largely depoliticised accounts of the Museveni government and its proponents. Harnessing a wealth of empirical materials, the contributors offer a critical, multi-disciplinary analysis of the unprecedented political, socio-economic, cultural and ecological transformations brought about by neoliberal capitalist restructuring since the 1980s. The result is the most comprehensive collective study to date of a neoliberal market society in contemporary Africa, offering crucial insights for other countries in the Global South.

The first edition of *Instructional Supervision: Applying Tools and Concepts* was highly regarded by both professors and students for its practicality and its - - coverage of tools & strategies to help supervisors work effectively with teachers.- up-to-date approach to clinical supervision which includes teacher portfolios, action research, peer coaching, and other innovative practices.- authentic case studies, classroom examples, field experiences, prompts for reflection, and pragmatic tips. The second edition retains all of these features and goes further by offering -- a comprehensive collection of classroom observation tools.- a new chapter on confronting marginal teaching. - expanded coverage of professional development & its link to teacher evaluation.- extended ELCC-based self-assessment activities for students to help them master the entire cycle of clinical supervision and the development of professional growth plans.

These collections of the official past papers of the GCE O Level Examinations from the University of Cambridge International Examinations has been developed for students of GCE O level. These books will act as tools for preparation and revision for students. These books have an edited Answer Guide for each paper based on the marks scheme written by CIE Principal

This World Bank report is a rich compilation of information on teaching learning materials (TLM) in Africa based on the extensive and multi-faceted experience of the author's work in the education sector in Africa. The study examines a wide range of issues around TLM provision including curriculum, literacy and numeracy, language of instruction policy, procurement and distribution challenges, TLM development and production and their availability, management and usage in schools. It also looks at the role of information and communication technology (ICT) based TLMs and their availability. The study recognizes that improved TLM system management is a critical component in achieving affordable and sustainable TLM provision for all students. This study, which draws from more than 40 Anglophone, Francophone, Lusophone, and Arabic-speaking countries will be particularly useful for policymakers, development partners, and other stakeholders attempting to understand the wide range of issues surrounding the complexity of textbook provision in Sub Saharan Africa.

Betrayal in the City, first published in 1976 and 1977, was Kenya's national entry to the Second World Black and African Festival of Arts and Culture in Lagos, Nigeria. The play is an incisive, thought-provoking examination of the problems of independence and freedom in post-colonial African states, where a sizeable number of people feel that their future is either blank or bleak. In the words of Mosese, one of the characters: "It was better while we waited. Now we have nothing to look forward to. We have killed our past and are busy killing our future."--Page 4 of cover.

'Welcome to the Knight Bus, emergency transport for the stranded witch or wizard. Just stick out your wand hand, step on board and we can take you anywhere you want to go.' When the Knight Bus crashes through the darkness and screeches to a halt in front of him, it's the start of another far from ordinary year at Hogwarts for Harry Potter. Sirius Black, escaped mass-murderer and follower of Lord Voldemort, is on the run - and they say he is coming after Harry. In his first ever Divination class, Professor Trelawney sees an omen of death in Harry's tea leaves... But perhaps most terrifying of all are the Dementors patrolling the school grounds, with their soul-sucking kiss... Having now become classics of our time, the Harry Potter ebooks never fail to bring comfort and escapism to readers of all ages. With its message of hope, belonging and the enduring power of truth and love, the story of the Boy Who Lived continues to delight generations of new readers.
