The pimp has reached nearly mythical status. We are fascinated by the question of how a guy from the ghetto with no startup capital and no credit -- nothing but the words out of his mouth -- comes not only to have a stable of sexy women who consider him "their man," but to drive a Rolls, sport diamonds, and wear custom suits and alligator shoes from Italy. His secret is to follow the "unwritten rules of the game" -- a set of regulations handed down orally from older, wiser macks -- which give him superhuman powers of charm, psychological manipulation, and persuasion. In Pimpology, star of the documentaries Pimps Up, Ho's Down and American Pimp and Annual Players Ball Mack of the Year winner Ken Ivy pulls a square's coat on the unwritten rules that took him from the ghetto streets to the executive suites. Ken's lessons will serve any person in any interaction: Whether at work, in relationships, or among friends, somebody's got to be on top. To be the one with the upper hand, you've got to have good game, and good game starts with knowing the rules. If you want the money, power, and respect you dream of, you can't just "pimp your ride," you need to pimp your whole life. And unless you've seen Ray Charles leading Stevie Wonder somewhere, you need Ken's guidelines to do it. They'll reach out and touch you like AT&T and bring good things to life like GE. Then you can be the boss with the hot sauce who gets it all like Monty Hall

A celebrity street boss shares insider rules about image, seduction, and power as learned from his mentors, in a guide that reveals the importance of establishing one's value, winning loyalty, and inviting pursuit.

This practical, interdisciplinary text draws from empirically grounded scholarship, survivor-centered practices, and an ecological perspective to help readers develop an understanding of the meaning and scope of human trafficking. Throughout the book, the authors address the specific vulnerabilities of human trafficking victims, their medical-psycho-social needs, and issues related to direct service delivery. They also address the identification of human trafficking crimes, traffickers, and the impact of this crime on the global economy. Using detailed case studies to illuminate real situations, the book covers national and international anti-trafficking policies, prevention and intervention strategies, promising practices to combat human trafficking, responses of law enforcement and service providers, organizational challenges, and the cost of trafficking to human wellbeing.

power. _____ (From the Playboy interview with Jay-Z, April 2003) PLAYBOY: Rap careers are usually over fast: one or two hits, then styles change and a new guy comes along. Why have you endured while other rappers haven't? JAY-Z: I would say that it's from still being able to relate to people. It's natural to lose yourself when you have success, to start surrounding yourself with fake people. In *The 48 Laws of Power*, it says the worst thing you can do is build a fortress around yourself. I still got the people who grew up with me, my cousin and my childhood friends. This guy right here (gestures to the studio manager), he's my friend, and he told me that one of my records, *Volume Three*, was wack. People set higher standards for me, and I love it.

The former Hollywood king reveals secret techniques with proven results on mastering the art of submission. A look inside of the mind of the master as well as a chilling peek into the shadow world. A modern-day guide parallel to *The Prince* by Machiavelli ([link](#)). This book gives a panoramic view of the psychology that goes into the complete control over others—mind, body and spirit. Secrets known by a select sect and mastered by an elite few are finally exposed. *The Pimp Game* thoroughly explains how these methods are being practiced, performed, and perfected every day, everywhere right up to, and including the Oval office.

Miller's Children is a passionate and comprehensive look at the human consequences of the US Supreme Court's decision in the case of *Miller v. Alabama*, which outlaws mandatory life-without-parole sentences for juvenile murderers. The decision to apply the law retroactively to other cases has provided hope to those convicted of murders as teenagers and had been incarcerated with the expectation that they would never leave prison until their own death as incarcerated adults. Psychological expert witness James Garbarino shares his fieldwork in more than forty resentencing cases of juveniles affected by the *Miller* decision. Providing a wide-ranging review of current research on human development in adolescence and early adulthood, he shows how studies reveal the adolescent mind's keen ability for "malleability", suggesting the true potential for rehabilitation. Garbarino focuses on how and why convicted teenage murderers have been able to accomplish dramatic rehabilitation and transformation, emphasizing the role of education, reflection, mentoring, and spiritual development. With a deft hand, he shows us the prisoners' world that is filled, first and foremost, with stories of hope amid despair, and of moral and psychological recovery in the face of developmental insult and damage.
