Set in an alternate Europe where bloody conflicts rage, the third book of the Crown of Stars epic fantasy series continues the world-shaking conflict for the survival of humanity It is a crucial time in the war-torn kingdoms of Wendar and Varre, a moment when even one wrong decision can tilt the balance of events into total disaster. For Sanglant—King Henry ' s son—and Liath—the woman he loves—the offer of both a haven from their enemies and the chance for Liath to study the ancient lore with those who claim her as their own, seems like the answer they have been seeking. But no place can truly be safe for them. Both their lives and their

love will be at risk when they are forced to choose which pathway each will follow—lured by the equally strong demands of politics, forbidden knowledge, and family. Liath, born with a dangerous power beyond her control, is torn between her longing for Sanglant and the child they are about to have and the call of sorcery, which can open the way into the land of the Aoi, the Lost Ones. And even as Liath struggles with magic ' s seductive spell, Sanglant ' s Aoi mother returns to the mortal world, seeking the son she abandoned as a babe. As the fates of kingdoms shift with the changing fortunes of those caught up in the dangers of both civil war and continuing attacks by the nonhuman Eika and the Quman invaders, time is running out for Liath, Sanglant, King Henry, and the people of Wendar and Varre. For the time of cataclysm is fast approaching—and no one can foretell who

to hone their teaching skills can find a number of books on educational strategies written by physicians from other disciplines. However, until the publication of the first edition of this book, they did not have access to a text written by emergency medicine physicians on methods of teaching that are directly applicable to teaching EM. This book was compiled to meet that need. Following the introductory section, which provides important background information, the book's contents are organized into 4 sections that correspond to the core needs and interests of EM educators: Section 2 focuses on practical and ethical considerations of teaching in the ED; Section 3 provides strategies for teaching specific groups of learners; Section 4 looks at the skills that are characteristic of the best EM educators; and Section 5 looks in depth at specific
