This book disseminates original research on learning in and from practice in pre-service teacher education. Authors such as Lederman and Lederman describe the student teaching practicum (or work-integrated learning [WIL]), which is an essential component of pre-service teacher education, as the 'elephant in the room'. These authors note that 'the capstone experience in any teacher education programme is the student teaching practicum... [a]fter all, this is where the rubber hits the road'. However, many teacher educators will agree that this WIL component is sometimes very insufficient in assisting the student teacher to develop their own footing and voice as a teacher. This is the 'gap' that this research book addresses. Most of the chapters in the book report empirical data, with the exception of two chapters that can be categorized as systematic reviews. WIL is addressed from various angles in the chapters. Chapter 6 focuses on research related to what makes Finnish teacher education so effective, and in Chapter 4 researchers of the University of Johannesburg disseminate their findings on establishing a teaching school (based on Finnish insights) in Johannesburg. Chapter 3 highlights the challenges faced in open-and distance learning teacher education contexts. Several of the chapters disseminate research findings on alternative interventions to classic WIL, namely, where "safe spaces" or laboratories are created for student teachers to learn and grow professionally. These could either be simulations, such as software

Access Free Platinum Geography Teachers Guide Grade12 Page 185

programmes and avatars in the intervention described in Chapter 2; student excursions, as the findings in chapters 5, 7 and 10 portray; or alternative approaches to WIL (e.g. Chapters 11 and 12). The book is devoted to scholarship in the field of pre-service teacher education. The target audience is scholars working in the fields of pre-service teacher education, work-integrated learning, and self-directed learning. The book makes a unique contribution in terms of firstly its extensive use of Cultural-Historical Activity Theory as a research lens, and secondly in drawing on various theoretical frameworks. Both quantitative and qualitative research informed the findings of the book.

Written for pre-service and in-service early childhood professionals in child care, preschool, or kindergarten through third grade settings, *ART & CREATIVE DEVELOPMENT FOR YOUNG CHILDREN*, 8th Edition, takes a child-centered approach to art education. Updated throughout, the book includes an in-depth discussion of technology to aid teachers in understanding the role that technology can play in children's visual art appreciation and production. Guidelines for establishing an inclusive art program in classrooms for young children are included for early childhood professionals. Activities and recipes make the text a valuable resource for in-service teachers. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Study & Master Social Sciences has been specially developed by an experienced author team for the Curriculum and Assessment Policy Statement (CAPS). The comprehensive Learner's Book: * provides activities that develop learners' skills and understanding of each of the modules specified by the CAPS curriculum * includes good-quality illustrations, photographs and diagrams in full colour * offers current and relevant content clearly set out according to the curriculum document. The innovative Teacher's Guide includes: * step-by-step guidance on the teaching of each lesson and activity as well as each form of assessment * Remedial and Extension activities for each module * bright ideas to extend the curriculum into the world outside the classroom * a complete section on Formal Assessment, with sample examinations and their memoranda as well as photocopiable record sheets and templates.

Study & Master Agricultural Sciences Grade 12 has been especially developed by an experienced author team for the Curriculum and Assessment Policy Statement (CAPS). This new and easy-to-use course helps learners to master essential content and skills in Agricultural Sciences.

A step-by-step program that shows parents, simply and clearly, how to teach their child to read in just 20 minutes a day.
