The EFI on the RXLs demands a full 12 volts. Anything less and it will start causing problems, leaving you chasing ghosts. Start with a fresh battery and verify that it is at least 12 volts. Get two of them. You ...

An inventive machinist in the San Francisco Fire Department repair shop, Daniel D. Hayes patented the first successful aerial ladder in America in 1868. At first these heavy ladders were raised by hand, by firefighters furiously turning cranks and handwheels. Early in the new century coil springs took the muscle work out of hoisting the aerial ladder and soon hydraulic power replaced manpower entirely. In the 140

years since they were introduced, aerial ladders have undergone continuous evolution and improvement. In the late 1950s, aerial firefighting in America was revolutionized by the introduction of the elevating platform. Today, firefighters battle major fires with massive aerial towers and telescopic aerial ladders. The only book wholly devoted to the evolution of aerial firefighting, this lavishly-illustrated volume by one of America's most respected fire apparatus historians and authors covers them all: from long hook-and-ladder trucks drawn by straining three-horse hitches, early aerial ladders and the aerial's heavy-artillery cousin—the water tower. Included are four-wheel service aerials,

glamorous tillered tractor-trailer types, compact rearmounts and versatile quintuple combinations.

The manual contains separate sections for vehicle service, engines, converters, track drive, track and suspension, and skis and steering.

The Golden Age of snowmobile manufacturing was from 1968-1976 with a gradual slow down leading to 1982. During this time literally hundreds of snowmobile manufacturers sprung up and then disappeared. This book is a look at all the most interesting, rare, or collectible snowmobiles from that time period. The big names like Arctic Cat, Polaris, Ski-Doo, Yamaha, John Deere, Scorpion, Snow-Jet, Mercury, Rupp, Moto-Ski, to the

many small-company brands like Allied, Boa Ski, Chaparral, Evinrude, Harley Davidson, Johnson, Polaron, Sears, Skiroule, Sno Prince, Viking, and even includes a chapter of collectible racing snowmobiles in the hobby, like the 1977 Arctic Cat Z that turned Arctic Cats racing program around, and treasures like a 1973 Chaparral grass drag sled or a 1974 Roll-O-Flex called The Wild One. This book would be a benefit to anyone interested in sleds from this time period or looking to buy a more collectible sled from this era.
