A secret lies buried at the heart of her family--but it can't stay hidden forever. When Cara stumbles across a stash of old postcards in the attic, their contents make her question everything she thought she knew. The story she pieces together is confusing and unsettling, and appears to have been patched over with lies. But who can tell her the truth? With her father sinking into Alzheimer's and her brother reluctant to help, it seems Cara will never find the answers to her questions. One thing is clear, though: someone knows more than they're letting on. Torn between loyalty to her family and dread of what she might find, Cara digs into the early years of her parents' troubled marriage, hunting down long-lost relatives who might help unravel the mystery. But the picture that begins to emerge is not at all the one she'd expected--because as she soon discovers, lies have a habit of multiplying. . . . Revised edition: This edition of Postcards from a Stranger includes editorial revisions.

The story of a well-meaning fugitive-at-large provides a glimpse of America's past as it follows Loyal Blood from his home in Vermont, where he mistakenly commits a heinous crime, to the coast of California

History shapes those who travel through it Following the unexplained disappearance of her parents, and in a last ditch attempt to save the antique store she has inherited from financial ruin, Sarah Lester takes on a deceased estate. Amongst the estate is a collection of vintage postcards which lead Sarah on a journey through time. Sarah is unprepared for what these postcards hint at about their reclusive former owner, and soon they complicate her life in unimaginable ways, transporting her to Victorian London, colonial New Zealand and to the British Raj in India. Sarah has to fight her twenty-first century instincts, and a century of emancipation, to survive. Traversing three continents and two centuries, where tiger hunts and ruby necklaces are irrevocably entwined with murders and mysteries, auction houses and antiquities, Sarah is drawn into the enigma that could solve her parents' disappearance, and the question of should she stay or should she go, gets harder and harder to answer, the deeper she delves into the past. Perfect for fans of the Outlander series and lovers of The Time Travelers Wife. What people are saying about Fifteen Postcards: "If history lessons had been this entertaining, I would have scored an A+!" -Andrene Low, author of the Excess Baggage series "This story is one for devotees of adventurous historical fiction and tales of plucky young women finding their feet." -Stephanie Jones, CoastFM Book Reviewer "I think the author has done a commendable job in bringing the story to life and it's obvious that she has used extensive historical research to ensure that the story always feels authentic and that's not an easy feat to pull off." -JaffaReadsToo, Book Blogger "Kirsten McKenzie has written a very unusual novel: part time travel, part historical, and part antique review. Sarah's adventures in other times and other continents, linked together by the postcards and the antiques, are well researched and entertainingly written." -Historical Novel Society What reviewers are saying about Kirsten McKenzie: "McKenzie has done a spectacular job of combining well-researched history with a hint of mysterious intrigue." -Anxious Canadian Blog "Kirsten Mckenzie has written an excellent foray into historical fiction. I'm honestly not quite sure how she was able to keep up with and integrate the different settings, time periods, and characters without losing her place. But she managed it magnificently." -Author Sean Whittaker "McKenzie's descriptions of the shop are well drawn and wonderfully evoke the jumbled chaos of layers of leftovers from centuries of everyday life." -NZBookLovers blog

When a visiting researcher disappears along with her deceased uncle's collection of ancient scientific instruments, Jane Kingsley follows a trail of clues that leads her across France, with old friend Oliver Hatton following close behind her

A global exploration of postcards as artifacts at the intersection of history, science, technology, art, and culture. Postcards are usually associated with banal holiday pleasantries, but they are made possible by sophisticated industries and institutions, from printers to postal services. When they were invented, postcards established what is now taken for granted in modern times: the ability to send and receive messages around the world easily and inexpensively. Fundamentally they are about creating personal connections—links between people, places, and beliefs. Lydia Pyne examines postcards on a global scale, to understand them as artifacts that are at the intersection of history, science, technology, art, and culture. In doing so, she shows how postcards were the first global social network and also, here in the twenty-first century, how postcards are not yet extinct.

A sudden departure. A story decades in the making. The chaotic but happy equilibrium of the Nightingale family is thrown into disarray when Cecily--whose children can't remember her ever being remotely spontaneous--disappears to a Greek island with no warning or explanation. Her reasons for doing something so out of character are a total mystery to her three daughters, high-powered executive Felicity, unfulfilled GP Julia and organised mother-of-five Lily. What connection could she possibly have with Kefalonia? But Cecily has gone to continue a story she thought ended decades ago--one that could have a huge impact on her family. And when she returns, she'll have to tell them the truth. Will Cecily be able to hold her family together once she reveals her big secret? And might she discover that she's not the only one with a story to tell?

The Sunday Times bestseller and Richard & Judy Book Club author of Sleep returns with her most gripping book yet. STRANGERS: A TOP TEN SUNDAY TIMES BESTSELLER ' Fast-paced and satisfying ' DAILY MAIL ' I was glued from start to finish! ' SHARI LAPENA

One small act of kindness ripples out to connect four kids in this stirring novel by the author of the beloved The Benefits of Being an Octopus. Libby comes from a long line of bullies. She wants to be different, but sometimes that doesn't work out. To bolster herself, she makes a card with the message You are amazing. That card sets off a chain reaction that ends up making a difference in the lives of some kids who could also use a boost—be it from dealing with bullies, unaccepting families, or the hole that grief leaves. Receiving an encouraging message helps each kid summon up the thing they need most, whether it's bravery, empathy, or understanding. Because it helps them realize they matter—and that they're not flying solo anymore.

A dying wish. A devastating secret. Should the truth really stay buried? The four Bliss siblings have a loving but complicated bond, but when their mother, Dorothy, dies seemingly without a will, this relationship is put to the test. As the mourning siblings try to make sense of the situation, one of them is caught with a secret: before she died, Dorothy entrusted her favourite daughter with her will and a letter--and told her to destroy them both. Of course it was Anna their mother turned to for this mission. Miriam, the eldest, is far too sensible; Sebastian, the baby, too sensitive; and Clare, the middle child, has always been too rebellious to rely on, and long ago cut herself out of her siblings' lives. But what Anna finds in the documents could change everything. Do the other siblings not deserve to know what it is about them that their mother was so desperate to hide? And if it is revealed, will the Bliss family ever be the same again?
