Power Electronics is intended to be an introductory text in power electronics, primarily for the undergraduate electrical engineering student. The text is written for some flexibility in the order of the topics. Much of the text includes computer simulation using PSpice as a supplement to analytical circuit solution techniques.

Principles of Electrical Engineering Materials and Devices has been developed to bridge the gap between traditional electronic circuits texts and semiconductor texts

Passwords are not the problem. The management of passwords is the real security nightmare. User authentication is the most ignored risk to enterprise cybersecurity. When end users are allowed to generate, know, remember, type and manage their own passwords, IT has inadvertently surrendered the job title Network Security Manager to employees - the weakest link in the cybersecurity chain. Dovell Bonnett reveals the truth about the elephant in the room that no one wants to mention: Expensive backend security is worthless when the virtual front door has a lousy lock! Dovell proves that making passwords secure is not only possible, passwords can actually become an effective, cost efficient and user friendly feature of robust cybersecurity. After examining how encryption keys are secured, this book introduces a new strategy called Password Authentication Infrastructure (PAI) that rivals digital certificates. Passwords are not going away. What needs to be fixed is how passwords are managed.

The book begins with an educational theory guide, to help deepen your understanding of why your horse is acting the way he does and what his motivating factors are. Following the theory guide are over 77 Solutions for herd bound behavior. Included in these solutions are exercises divided into sections individualized to how your horse is kept; Stall, Pasture, Pair bonded, etc. It also includes strategies for riding, Emergency "In the moment" solutions and pages to record your progress on. These

strategies can be used with each member of the herd, this is most valuable in situations where a single buddy horse is left behind. By using the exercises, programs and approaches you can create horses that are more self confident and able to be separated with more ease and relaxation. I am incredibly excited to get this information in the hands of horse lovers who struggle with this frustrating and destructive issue! There is nothing more peaceful then hearing horses munching on grass instead of screaming for their herd mate!

This book gives an overview of astrology in layman's terms, making the horoscope wheel and other difficult concepts easier to grasp. This is a compilation of 12 books, one on each zodiacal sign, in which the author discusses basic astrology for novices and then the challenging traits of each zodiac sign. Tips are included for the inherent pitfalls of each zodiac sign, so that weaknesses can be turned into strengths. This book also can help friends and family to comprehend their loved ones more easily and is meant to be a tool for both confirmation and understanding of the people with each zodiac sign.

Can you solve all the word puzzles in this book? With plenty of practice and constant word exposure, you could! Inside this fun activity book is treasure trove of word secrets. You will be presented of bold pictures and scrambled letters. All you need to do is to identify the picture by unscrambling letters. Pretty easy huh? Not if you're in the first grade!

Solutions To The 5 Biggest Mistakes Companies Make with Social Media. How can you make Social Media work for your company? Gain immediate access to five practical suggestions to easily gain unfair advantage for your business. Here's what you'll learn: The 5 critical errors most companies and leaders make with regards to social media and what to do about each one How to embrace change and create a unified strategy for your organization Why it's not enough just to have an account, profile or page on each of the main social networks How to align your social media involvement with your corporate values, brand, and overall objectives Using social media to create informative conversations with your consumers and stakeholders How to capitalize on customer enthusiasm The risks your company faces if you lack a social media policy and implementation of tools and systems to monitor and enforce that policy The importance of educating managers and employees regarding use of social media for the benefit of the organization Leveraging social media as a research tool to gain up to the minute information about your industry The difference between advertising and the free media exposure available via social media Here's how you'll benefit: Social media usage is not just for teens and celebrities. Explore how social media might benefit your organization in handling a crisis, contribute to marketing, or expediting broad-reach communication needs. Leverage relationships on social media to find new vendors, suppliers, and talent. Create advocates, agents, and raving fans for your company, product, or service. Gather business intelligence on competitors and set the stage for strategic alliances. " As a veteran of the social media industry – and it does move fast – I was still able to gain some valuable gems out of this book. Whether you are new to social media or an advanced marketer, this book is a must read. While most books on the topic are a heavy read, Taming the Social Media Monster, is quick, fun, AND entertaining. Pick up a copy today. You can't go wrong. "

~ Shama Kabani, CEO, Speaker, and Author of the Best-Selling The Zen of Social Media Marketing. “ A great overview of the social media challenge many businesses are facing. A smart, well-researched, and easy-to-read guide for anyone fumbling around in the new world of social media marketing and community-building. If you haven't been able to 'get your head around' this new way of communicating and connecting with your potential customers, reading this guide will point you in the right direction. ” ~Ken Kessler, President, Kessler Associates “ As the CEO of a leadership development firm I am always looking for great resources for my clients. As soon as I saw the critical errors and read these do-able, concrete ideas for managing social media I got very excited! Thanks for this fantastic resource. Just what we need right now! A simple, clear, immediately useful guide to the way we interact with consumers in a new era of two-way communication. Examples like the U.S. Army can help us reduce our fear, and realize it's not a monster after all! ” ~ Karlin Sloan, CEO, Speaker, and Author of Smarter Faster, Better and Unfear; Facing Change in an Era of Uncertainty. “ A must-read for business executives! While there is vast information on the spread of social media, most is hype, encouraging businesses to simply “ jump on the bandwagon ” . I work with many CEOs and find that many are skeptical of social media because of the hype. Pomerantz & Burmeister provide a no-nonsense approach to finding solutions that fit and support your business strategy. Read this and you'll be able to see clearly where you need to focus. ” ~ Lee Self – President, Renaissance Executive Forums
