This book uses logos, pathos, and ethos in critical thinking, active reading, and persuasive writing. Accessible and stimulating, the versatile manual can be used as a rhetoric, a reader, a guide on research writing, and a guide on style. Through its chapters, users learn to excel at what they say; through our style interchapters users earn to excel at how they say it. Cheating, conservation, race, politics, male/female communication styles, gun control, abortion, same-sex marriage, stem cell research ndash; many diverse and mature readings on these subjects engage readers and writers in analytical thinking and stimulate them to react with thoughtful discussions and compositions. For individuals who want to communicate clearly, argue persuasively, and analyze and evaluate what they read.

In Critical Thinking: An Appeal to Reason, Peg Tittle empowers students with a solid grounding in the lifelong skills of considered analysis and argumentation that should underpin every student's education. Starting with the building blocks of a good argument, this comprehensive new textbook offers a full course in critical thinking. It includes chapters on the nature and structure of argument, the role of relevance, truth and generalizations, and the subtleties of verbal and visual language. Special features include: • an emphasis on the constructive aspect of critical thinking—strengthening the arguments of others and constructing sound arguments of your own—rather than an exclusive focus on spotting faulty arguments • actual questions from standardized reasoning tests like the LSAT, GMAT, MCAT, and GRE • graduated end-of-chapter exercises, asking students to think critically about what they see, hear, read, write, and discuss • numerous sample arguments from books, magazines, television, and the Internet for students to analyze • many images for critical analysis • analyzed arguments that help students to read critically and actively • an extensive companion website for instructors and students A companion website features: • for instructors: an extensive instructor's manual; a test bank; and PowerPoint slides • for students: extended answers, explanations, and analyses for the exercises and arguments in the book; supplementary chapters on logic and ethics; downloadable MP3 study guides; interactive flash cards; and thinking critically audio exercises. www.routledge.com/textbooks/tittle

Thinking Skills, second edition, is the only endorsed book offering complete coverage of the Cambridge International AS and A Level syllabus.

This book is designed to engage students' interest and promote their writing abilities while teaching them to think critically and creatively. Dowden takes an activist stance on critical thinking, asking students to create and revise arguments rather than simply recognizing and criticizing them. His book emphasizes inductive reasoning and the analysis of individual claims in the beginning, leaving deductive arguments for consideration later in the course.

Written by two of the leading experts in the field, this introductory text presents critical thinking as a process for taking charge of and responsibility for one's thinking. Based in theory developed over the last 30 years, Richard Paul and Linda Elder's text focuses on an integrated, comprehensive concept of critical thinking that is both substantive and practical. It fosters the development of basic intellectual skills students need to think through content in any class, subject, or discipline, as well as through any problem or issue they face. Simply stated, this text offers students the intellectual tools students need for lifelong learning, and rational, conscientious living. Now available from Rowman & Littlefield, the third edition features streamlined chapters, Think for Yourself activities, and a complete glossary of critical thinking terms. The Foundation for Critical Thinking continually offers new supplementary resources on its website (www.CriticalThinking.org) and online critical thinking community.
