Congrats on finishing the 2019 GCE O Level Principles of Accounts Paper 1! Every year, with the help of some of my students, I'll put up the Paper 2 solutions within hours after the paper. For Paper 1, the paper itself is submitted for marking - which leaves me with no reference to prepare a suggested solution unless I happen to receive the papers from my students from who-knows-which-source.

This is the first work of its kind. Original contributions from leading academicians, practitioners and accounting associations from around the world make this handbook a unique source of information on international accounting education and certification processes. A uniform format in most of the chapters allows for easy comparison between countries. This volume documents the development of accounting education and practice at country and global levels; studies the sensitivity of accounting education and practices to the unique socio-economic needs of its environment; and allows comparative studies at a time when attempts have begun to harmonize accounting education internationally. Most importantly, it shows how educational programmes around the world are preparing future accounting professionals to deal with the rapid technological and environmental changes of the 21st century.
