The 180 Days of Problem Solving for Grade 5 offers daily problem-solving practice geared towards developing the critical thinking skills needed to approach complex problems. This teacher-friendly resource provides thematic units that connect to a standards-based skill that fifth grade students are expected to know to advance to the next level. Lesson plans offer guidance and support for every day of the week, outlining strategies and activities that dig deeper than routine word problems. Each week students will use visual representations and analyze different types of word problems (including non-routine, multi-step, higher thinking problems). This comprehensive resource builds critical thinking skills and connects to national and state standards.

Problem Solving 4 Today: Daily Skill Practice for fifth grade contains reproducible activities designed to help students learn critical math word problem-solving skills with strategies such as drawing and using a tape diagram, working backward, finding a pattern, and more. The 4 Today series offers comprehensive, quick, and easy-to-use math workbooks. The reproducible activities review essential skills during a four-day period. On the fifth day, an assessment with related skills is provided. Each week begins with a Fluency Blast section to provide students with repeated, daily practice for essential skills. The format and style of the 4 Today books provide excellent practice for standardized tests. The series also includes a progress-tracking reproducible, a standards alignment chart, tips for fostering a school-to-home connection, and an answer key.

The 180 Days of Problem Solving e-Book for Grade 6 offers daily problem solving practice geared towards developing the critical thinking skills needed to approach complex problems. This teacher-friendly e-Book provides thematic units that connect to a standards-based skill that sixth grade students are expected to know to advance to the next level. Lesson plans offer guidance and support for every day of the week, outlining strategies and activities that dig deeper than routine word problems. Each week students will use visual representations and analyze different types of word problems (including non-routine, multi-step, higher thinking problems). This comprehensive resource builds critical thinking skills and connects to national and state standards.

Beast Academy Practice 5D and its companion Guide 5D (sold separately) are the fourth part in the four-part series for 5th grade mathematics. Level 5D includes chapters on percents, square roots, and exponents.

Solving word problems requires both strategy and skill. When confronted with a problem, students need to figure out how to solve the problem and then solve it! The 250 exercises in each book help students learn a variety of strategies for solving problems as well as grade-specific math skills.

"100 Word Problems : Grade 5 Math Workbook" is an exclusive BrainChimp book packed with carefully selected exercises to stimulate your child's Brain and develop a keen interest in the practical application of Math skills. These Math Word Problems help children practice and reinforce the essential math skills they learn in school. Regular targeted practice is a proven method of helping children reach their maximum potential and perform better on important standardized tests. The aim of this book is to develop logic and reasoning skills while building better math problem-solving skills and improving self-confidence. The BrainChimp series of books are designed to stimulate the minds of children and empower them with the skills to be more successful in school and beyond.
