This case study explores the role of the CPA in providing tax planning services to clients using a sophisticated and creative tax planning strategy developed by a fictitious CPA firm for its clients. It provides a framework to teach students ethical standards governing tax practice and rules regulating tax practice before the IRS. It also provides an opportunity for students to contemplate and develop personal standards of practice prior to being confronted with an actual ethical dilemma in practice.

Current, comprehensive guidelines to ethical regulations for accounting professionals A handful of high-profile accounting misdeeds at Enron, WorldCom, Adelphia, and the like have left the entire accounting profession scrambling to assert its validity and negotiate a flurry of new regulations. Ethics for CPAs provides a valuable road map to this new landscape, instructing accounting professionals on how to abide by the new pronouncements and, if necessary, how to professionally respond to an investigation. Employing an information-mapping format, Ethics for CPAs separates information into small units based on purpose or function for the reader, rather than by topic, creating an accessible desk reference. This authoritative guide covers the most recent and extensively revised ethics requirements of the: * AICPA's Code of Professional Conduct * SEC * Department of Labor * GAO's Yellow Book * State societies and state boards With a companion Web site posting interpretations of new pronouncements within thirty days of issuance, Ethics for CPAs proves the most up-to-date and comprehensive resource on the market.

Intends to offer research and cases that focus on the professional responsibilities of accountants and how they deal with the ethical issues they face. This series features articles on a range of important topics, including professionalism, social responsibility, corporate responsibility, ethical judgments, and accountability.
