In the Eyes of many Westerners, Muslim women are hidden behind a veil of negative stereotypes that portray them as either oppressed, subservient wives and daughters or, more recently, as potential terrorists. Yet many Muslim women defy these stereotypes by taking active roles in their families and communities and working to create a more just society. This book introduces eighteen Muslim women activists from the United States and Canada who have worked in fields from social services, to marital counseling, to political advocacy, in order to further social justice within the Muslim community and in the greater North American society. --

Training groups have long published user guides and training manuals, but now eBooks can change the way we design and distribute these materials. This book explores the different formats of eBooks; covers the workflow of publishing eBooks using low-cost tools; and explores how the most popular eReaders can be leveraged for learning content in your organization.
