This new edition covers many significant changes impacting the petroleum industry including important updates such as current industry practice issues from a proprietary survey conducted by the Institute of Petroleum Accounting, and practical guidance on new standards of revenue recognition, joint arrangements, consolidated financial statements, and disclosure of interests in other entities which are of critical importance to those involved or interested in the petroleum industry. New chapters covering midstream operations, master limited partnerships, and SEC considerations have been added. The updated text will also address numerous operational issues that continue to evolve with the demand for capital, inherent industry risks, and the impacts of product price fluctuation.

This publication addresses key accounting implementation issues related to Topic 606, Revenue from Contracts with Customers and related updates through FASB ASU No. 2016-12. At its completion, the guide will include 16 industry-specific chapters that address accounting implementation issues, and provide industry-specific illustrative examples of how to apply the new standard. It will also provide in-depth coverage of audit considerations from risk assessment and planning to execution of the audit. In light of the material changes resulting from this standard, it will require significant analysis and preparation well in advance of the effective date for all financial reporting based on US GAAP. For that reason, the AICPA is offering two options to quickly deliver finalized implementation issues as quickly as possible. Those options include: an annual online subscription available via our online professional library, or combination print/PDF, which includes completed chapters as of January 2017 in print as well as online PDF access to finalized implementation issues. Accounting and auditing content of this guide will be updated as implementation issues are finalized, and can be tracked via the link below.
